KEY BUSINESS HIGHLIGHTS IN THE NINE MONTHS OF 2026

Valamar Group delivered **robust business results** in the first nine months of 2026, supported by resilient demand during the peak tourism season and the contribution from recently completed investments. **Total consolidated revenue** reached **€499.4 million**, up 15.2% year-on-year (YoY). Growth was primarily driven by the opening of the five-star Pical Resort, the repositioning of the four-star Sunny Poreč by Valamar and the continued ramp-up of the four-star Arba Resort.

TOTAL CONSOLIDATED REVENUE
€500 MN
+15% YOY

Pical Resort, Valamar's largest investment to date and a €200+ million project, opened as a five-star resort with 513 keys, marking a **major milestone** in the development of **premium** and **year-round tourism**. The successful opening of the resort in March 2026 demonstrates Valamar's ability to develop, deliver and operate a large-scale, complex hospitality investment. Its year-round operating model, combining its core **family leisure offering** during the peak summer season with **MICE**, sports and other demand segments throughout the year, supports season extension, strengthens employment continuity and creates year-round career opportunities.

ADJUSTED EBITDA
€180 MN
+9% YOY

During its first year of operation, Pical Resort demonstrated **strong demand** for **premium leisure hotels** in Croatia and broad market acceptance across Group`s key source markets. **Direct sales** accounted for 76% of total board revenue, while members of the Valamar Rewards loyalty programme generated 92% of bookings through direct channels, reflecting the strength of the Group's established customer base, direct distribution platform and loyalty programme. **RevPAR** significantly exceeded the Valamar Collection portfolio average, while **guest satisfaction** reached 95%, placing Pical Resort among the highest-rated properties in Valamar's portfolio. The resort's first-year performance confirms its **successful market positioning**, while the full contribution of the investment to revenue and profitability is expected to materialise over the next two years through **further improvements in key operating metrics**, including occupancy, average daily rate and RevPAR.

PICAL RESORT DELIVERS STRONG FIRST-YEAR RESULTS

In addition to its strong first-year operating performance, Pical Resort also received significant international recognition. Just three months after opening, **Harry's Piccolo** was awarded its first **MICHELIN star**, becoming the first restaurant in Poreč to receive this distinction. Furthermore, **ESPA** Wellness was named **"Spa of the Year 2026"** at the Destination Deluxe Awards & Wellness Summit in Bangkok. These achievements, together with partnerships with internationally recognised brands such as ESPA and Purobeach, further reinforce the resort's premium positioning and international profile.

FINANCIAL HIGHLIGHTS

Valamar Group continued to deliver growth in financial performance during the first nine months of 2026:

- **Operating income** increased by 14.1% YoY to **€491.8 million**, reflecting stable demand, increased capacity and ongoing improvements in portfolio quality
- **Operating cost** amounted to **€308.3 million** (+17.0%), primarily reflecting higher average headcount and salary increases, together with higher material costs associated with newly opened and repositioned properties
- **Adjusted EBITDA** reached **€180.3** million, up 9.2% YoY, while the adjusted EBITDA **margin** stood at **36.7%** (-1.7 p.p.). The margin decrease reflects higher operating costs associated with the initial ramp-up of Pical Resort and Sunny Poreč by Valamar, including certain non-recurring costs
- **EBT** amounted to **€104.7 million**, up 3.5% YoY, with the increase in EBITDA and improvement in net finance result partially offset by higher depreciation
- **Adjusted net debt** stood at **€359.2** million, representing a 4.3% increase compared with year-end 2025, reflecting capital expenditure associated with investment cycle.

OPERATIONAL HIGHLIGHTS

Demand remained resilient across all the Group's destinations despite global macroeconomic headwinds, underpinned by the diversification of its portfolio and source markets. Market conditions had only a limited impact on business performance and were reflected in stable board revenue in Dubrovnik, the destination most exposed to air travel demand.

Key operating indicators in the first nine months of 2026:

- **Board revenue** totalled **€412 million**, representing a 14.2% increase YoY (+18.2% in hotels and +5.2% in campsites). Performance was driven by strong results across Group's destinations in Istria, Rab and Krk, while Poreč recording the strongest growth of 29%, supported by the opening of Pical Resort
- **ARR** (Average Daily Rate) increased by 12.5% to €172 (+12.8% in hotels and +6.5% in campsites) driven by ongoing portfolio quality upgrades. **Occupancy stood** at **42.6%** (-0.5 pp), reflecting the ongoing ramp-up of the 525 newly added

rooms and the temporary impact of redevelopment activities in the Brulo area on operational availability

- **2.4 million accommodation units sold**, up 1.5% YoY (+4.8% in hotels and -1.2% in campsites). The slight decline in campsite volumes was primarily attributable to calendar headwinds that affected June demand
- **RevPAR** increased by 11.2% to **€19,980** (+10.8% in hotels and +5.4% in campsites).
- **EBITDA PAR** reached **€8,868**, representing growth of 6.0% YoY (+8.9% in hotels and +4.6% in campsites)
- **6.3 million overnight stays**, up 1.7% YoY. Germany and Austria continued to be the most important source markets, accounting for 45% of total overnight stays, while domestic guests represented nearly 7%. Lower demand from Germany (-3.5% overnight stays) was offset by continued growth across other key source markets, particularly Hungary, Croatia, Poland and the United Kingdom
- **Direct sales** remained the Group's dominant and highest-margin distribution channel, accounting for **66.5%** of total board revenue, in line with the previous year
- Overall **guest satisfaction** stood exceptionally high at **90%**, based on over 200,000 guest surveys.

INVESTMENTS

Valamar Group is nearing completion of its **€208.1 million 2025/2026 cycle**. Three projects with a total value of €37.3 million, comprising a new laundry facility, the expansion of the Valfresco Central Kitchen and staff accommodation in Poreč, have been rescheduled to the 2026/2027 cycle from the originally announced €245.5 million investment programme.

Key Projects by Subsidiary:

- **Valamar Riviera:** Finalized construction of the 5-star Pical Resort, rebranded the Crystal Hotel and Diamant Apartments into the 4-star Sunny Poreč by Valamar, and launched the reconstruction of the Valamar Diamant Hotel (including the new Aquamar zone and a shared pool complex for the Brulo cluster)
- **Imperial Riviera:** Focused capital on expanding capacity and introducing new water attractions at Arba Resort.

2025/2026 INVESTMENTS: **€208.1 MN**

Looking ahead, Valamar Group has projected a **€151.6 million investment** for the **2026/2027 cycle**, allocating €115.4 million to Valamar Riviera and €36.2 million to Imperial Riviera. Pipeline projects include ongoing upgrades of Valamar Diamant and the Brulo sports zone, a new central laundry facility, the expansion of Valfresco Central Kitchen, staff accommodations in Poreč, and the further development of Arba Resort on Rab.

Valamar continued to develop its Business Strategy 2030, with its adoption and publication expected in the first half of 2027.

HUMAN RESOURCES

Valamar was named Croatia's **most attractive employer in tourism** and hospitality for the ninth consecutive year, remaining the only hospitality company ranked among the nation's top 20 employers in the annual survey by Alma Career Croatia (Moj-Posao portal).

The Group continued its strategic investment in talent attraction and retention during 2026 through competitive compensation adjustments and expanded professional development. Effective 1 May 2026, base salaries increased by 5%, alongside upward coefficient adjustments for more than 30% of internal job roles.

As of 31 July 2026, Valamar Group's total workforce reached **9,732 employees**, including 3,285 permanent staff.

SUSTAINABILITY

Valamar continues to embed ESG principles across its operations, property investments, and destination management, focusing on energy efficiency, decarbonization, and local procurement.

Key Achievements in 2026:

- International Recognition: Honored with the **International Sustainability Award** for excellence in responsible tourism, decarbonisation and community contribution
- Sustainable Construction Standards: Following the gold DGNB certification of Valamar Amicor Resort (Hvar) in 2025, both **Arba Resort** (Rab) and **Pical Resort** (Poreč) secured **gold DGNB pre-certifications** in 2026, while **Marea Suites** achieved **Platinum DGNB Building in Use certification**, reinforcing the Group's commitment to green building practices.

OUTLOOK AND EXPECTATIONS

For the 2026 financial year, Valamar Group expects **consolidated operating revenue** in the **range of €524 million to €528 million** (2025: €461 million), representing YoY growth of 13.6% to 14.5%.

Adjusted EBITDA is expected in the **range of €141 million to €144 million** (2025: €132 million), corresponding to growth of 7.1% to 9.4%. Expected adjusted EBITDA was negatively impacted by €5.1 million in non-recurring costs related to investments in Pical Resort and Sunny Poreč by Valamar, including small inventory, pre-opening and opening costs, and other associated expenses.

CEO STATEMENT

"The first nine months of 2026 reflect the continued successful execution of our strategy focused on premium and year-round tourism. The opening of Pical Resort, a landmark investment for Valamar, represents a major milestone in the transformation of our portfolio. In its first year of operation, the resort has demonstrated strong operating performance, further elevated the quality of our portfolio and laid the foundation for future growth in revenue and profitability.

Alongside the successful delivery of key investments in Poreč and the continued development of Arba Resort on Rab, we remain committed to enhancing portfolio quality, investing in our people and destinations, and advancing sustainable growth. We are confident that this approach will continue to support long-term growth while creating sustainable value for our shareholders, guests, employees and local communities."

- Željko Kukurin, CEO of Valamar Riviera d.d.

1 In accordance with the classification under the TFI POD-RDG reporting forms. EBIT and EBITDA and their margins, as well as the EBT margin, are presented based on operating revenues.

2 In accordance with the classification under the international hotel reporting standard USALI (Uniform System of Accounts for the Lodging Industry). Non-commercial facilities/ data excluded.

3 Operating costs include cost of materials, staff costs, other costs and other operating expenses, net of extraordinary expenses and one-off items.

4 EBITDA (earnings before interest, taxes, depreciation and amortization) is calculated using the following formula: operating revenues – operating expenses + depreciation + value adjustments.

5 The adjustment includes: i) extraordinary income (€3.1 million in first nine monhts of 2026; €2.1 million in the prior year), ii) extraordinary expenses (€1.7 million in first nine monhts of 2026; €1.4 million in the prior year), and iii) severance payments (€0.4 million in first nine monhts of 2026; €0.3 million in the prior year).

6 Adjustment made for the result from exceptional operations and one-off items.

7 Net debt: non-current and current liabilities to banks and other financial institutions + liabilities for loans, deposits and similar items + other liabilities in accordance with IFRS 16 (leases) – cash at bank and in hand – non-current and current investments in securities – loans, deposits and similar items granted.

8 Excluding all lease liabilities under IFRS 16.

9 Market capitalisation is calculated as the total number of shares multiplied by the closing share price at the end of the period.

10 EV (enterprise value) represents the value of the company and is calculated as: market capitalisation + net debt + minority interest.

11 EPS (earnings per share) represents earnings per share calculated based on net profit attributable to equity holders of the parent.

12 Data for Helios Faros are not included. Non-commercial facilities/data excluded.

13 The average room rate is calculated based on cumulative board revenue (accommodation and board revenues).

14 Revenue per accommodation unit is calculated based on cumulative board revenue (accommodation and board revenues).

15 Revenue per accommodation unit is based on total property-level operating revenue.

16 EBITDAPAR is expressed based on USALI EBITDA relative to the number of accommodation units.

REVENUES

Total revenue in the first nine months of 2026 (9M 2026) reached €499.4 million, representing an increase of 15.2%, or €66.0 million, compared with the same period of 2025.

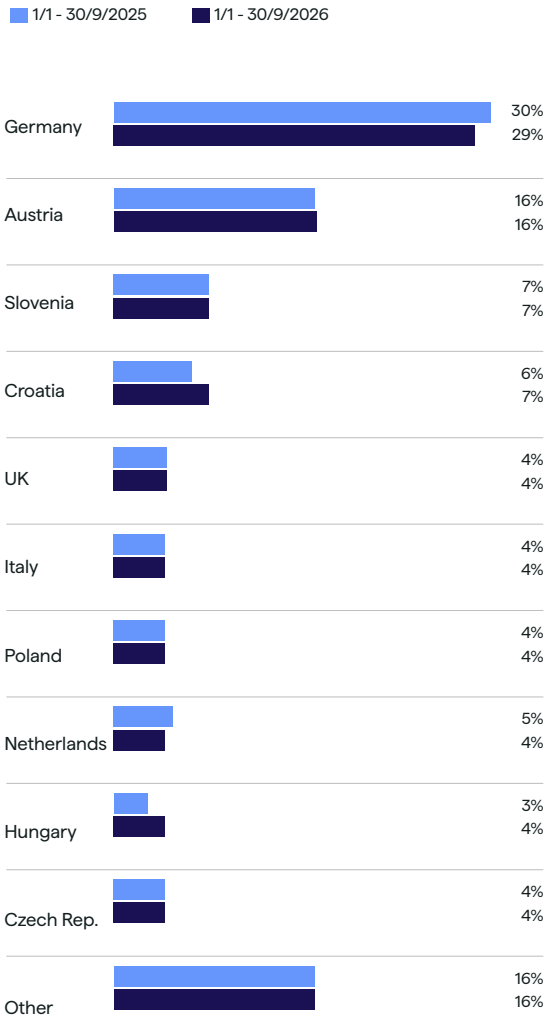

Revenue performance in 9M 2026 reflected the following trends:

- Sales revenue amounted to €488.0 million, up 14.0% YoY. Domestic revenues amounted to €55.0 million (11.3% of total sales revenues), increasing by 17.1%, or €8.0 million. Revenues from foreign markets totaled €433.0 million (88.7% of total sales revenues), increasing by 13.6% or €51.8 million, supported by strong demand across the Group's key source markets
- Other operating income reached €3.7 million, an increase of €1.0 million compared with the prior-year period, primarily attributable to income relating to previous reporting periods
- Financial income amounted to €7.2 million, up €4.9 million YoY, driven by an increase in the fair value of interest rate swaps.

Board revenues increased by 14.2% to €411.8 million in 9M 2026, representing more than 84% of the Group's sales revenue. Hotels and resorts generated 72% of total board revenue, with the remaining 28% rising from campsites. All destinations in which the Group operates recorded growth in board revenues during the period, with the exception of Dubrovnik, where revenues remained broadly in line with the prior-year period. Poreč made the largest contribution to growth, recording a 29% increase in board revenues, primarily driven by new and upgraded capacity, with Pical Resort being the single largest growth driver.

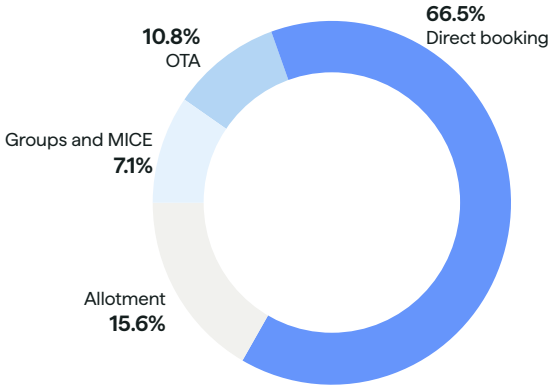

Growth in board revenues in 9M 2026 was primarily driven by a 12.5% increase in Average Daily Rate (ARR), reflecting ongoing portfolio quality upgrades. Additional support arose from a 4.8% increase in accommodation units sold in hotels and resorts. At the same time, a slight decline in accommodation units sold in campsites (-1.2% YoY) was more than offset by a 6.5% increase in ARR, allowing campsites to contribute positively to overall board revenue growth. Direct sales remained robust, accounting for 66.5% of board revenues, broadly in line with the prior-year period and underscoring the continued effectiveness of the Group's sales and distribution strategy.

TOTAL OPERATING EXPENSES

Total operating expenses in 9M 2026 amounted to €383.3 million, up 18.5% YoY. The increase was primarily driven by a higher average headcount and planned salary increases, as well as elevated material costs associated with the opening of new properties and the pre-opening costs of Pical Resort and Sunny Poreč by Valamar, including certain non-recurring costs.

Operating expense in 9M 2026 reflected the following trends:

- Material costs amounted to €138.0 million, up 17.1% YoY, driven by higher spending on small inventory and workwear, maintenance, and promotional and marketing activities, including certain non-recurring costs. The increase also reflected higher operating costs resulting from growth in accommodation units sold in hotels, particularly food and beverage and energy expenses.
- Personnel costs increased by 18.4% YoY to €127.5 million, driven by growth in average headcount and salary adjustments
- Depreciation reached €72.8 million, representing a 24.9% increase YoY and reflecting the Group's intensive investment cycle over the past two years
- Other cost increased by €5.3 million (+13.9% YoY) to €43.5 million, mainly due to higher employee-related costs, including accommodation, transport, incentive payments and travel expenses for foreign workers, as well as increased utility charges
- Provisions and value adjustments remained broadly in line with the prior-year period
- amounted to €1.4 million, in line with the prior-year period.

EBITDA AND PROFIT FOR THE PERIOD

Valamar Group recorded growth in adjusted EBITDA in 9M 2026. Adjusted EBITDA increased by €15.1 million to €180.3 million, up 9.2% YoY, while the adjusted EBITDA margin stood at 36.7% (-1.7 p.p.). Growth was primarily driven by stable demand and the contribution from new and upgraded capacity, led by Pical Resort, Sunny Poreč by Valamar and Arba Resort, which further enhanced portfolio quality and supported the Group's revenue growth. The lower adjusted EBITDA margin primarily reflects higher costs associated with the first year of operation of newly opened and repositioned properties, including certain non-recurring opening-related costs.

Earnings before tax (EBT) amounted to €104.7 million, an increase of €3.6 million YoY, as growth in adjusted EBITDA and an improved net finance result were partly offset by higher depreciation.

Net profit in 9M 2026 amounted to €84.1 million, down €8.5 million YoY (-9.2%), as higher EBT was more than offset by lower tax incentives related to investment projects. The Group recognised an estimated income tax expense of €20.6 million in 9 M 2026. This estimate is based on currently available information and is not indicative of the final income tax expense for the 2026 financial year. Given the seasonal nature of the Group's operations and the expected net loss in 4Q 2026, EBT for the full year 2026 is expected to be lower, while the recognition of tax incentives related to investment projects is expected to reduce the income tax expense.

RESULT FROM FINANCIAL ACTIVITIES

The net finance result in 9M 2026 strengthened by €2.2 million to a loss of €4.2 million, compared with a loss of €6.5 million in the prior-year period. This was primarily driven by higher finance income, which increased by €4.9 million (+215.1%) to €7.2 million, mainly reflecting a €5.0 million increase in the fair value of interest rate swaps. Interest income, however, decreased by €0.2 million due to lower average cash balances.

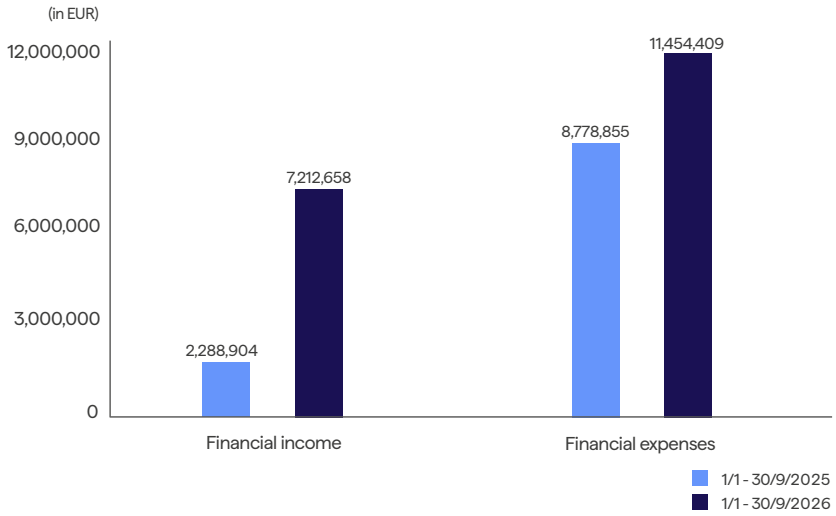

Finance expenses increased by 30.5% to €11.5 million, primarily due to a €2.9 million increase in interest expense resulting from higher utilisation of short-term borrowings, the cessation of interest capitalisation on investment loans related to Pical Resort and Arba Resort, and interest expense related to the financing of the current investment cycle. Other finance expenses decreased by €0.3 million, mainly reflecting lower expenses related to interest rate swaps (IRS).

ADJUSTED NET DEBT

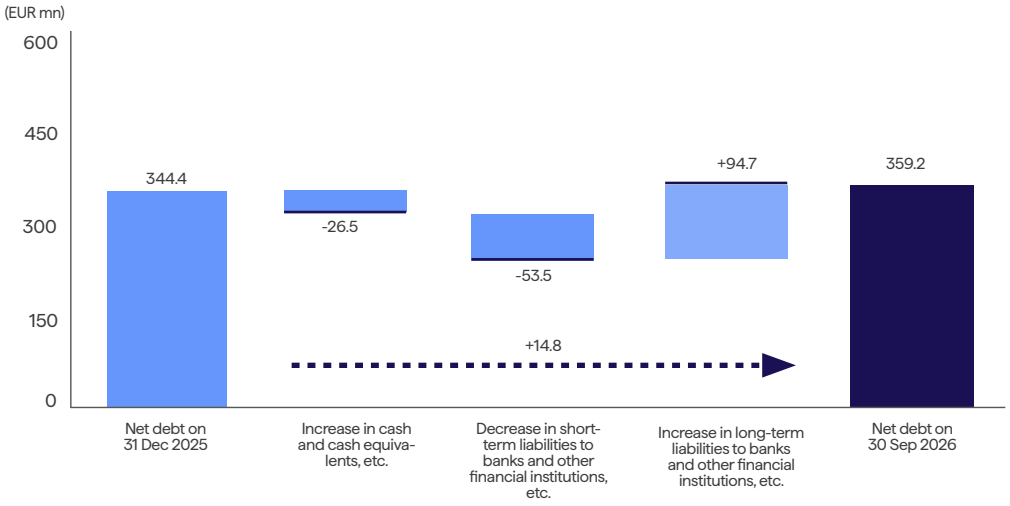

Adjusted net debt[25] increased by €14.8 million in 9M 2026 to €359.2 million, reflecting capital expenditure associated with the Group's investment cycle. The increase was partially offset by the repayment of short-term borrowings and higher cash balances generated during the peak season.

The Group's liquidity position remains stable, supported by available cash balances and committed credit facilities, which provide sufficient funding for both ongoing operations and the investment cycle.

Financial income and expenses

Adjusted net debt development

25 Adjusted net debt (excluding liabilities related to renting under IFRS 16): long-term and short-term liabilities to banks and other financial institutions + liabilities for loans, deposits and similar items + other liabilities in accordance with IFRS 16 (leases) – cash at bank and in hand – long-term and short-term investments in securities – short-term loans, deposits and similar items granted.

ASSETS AND LIABILITIES

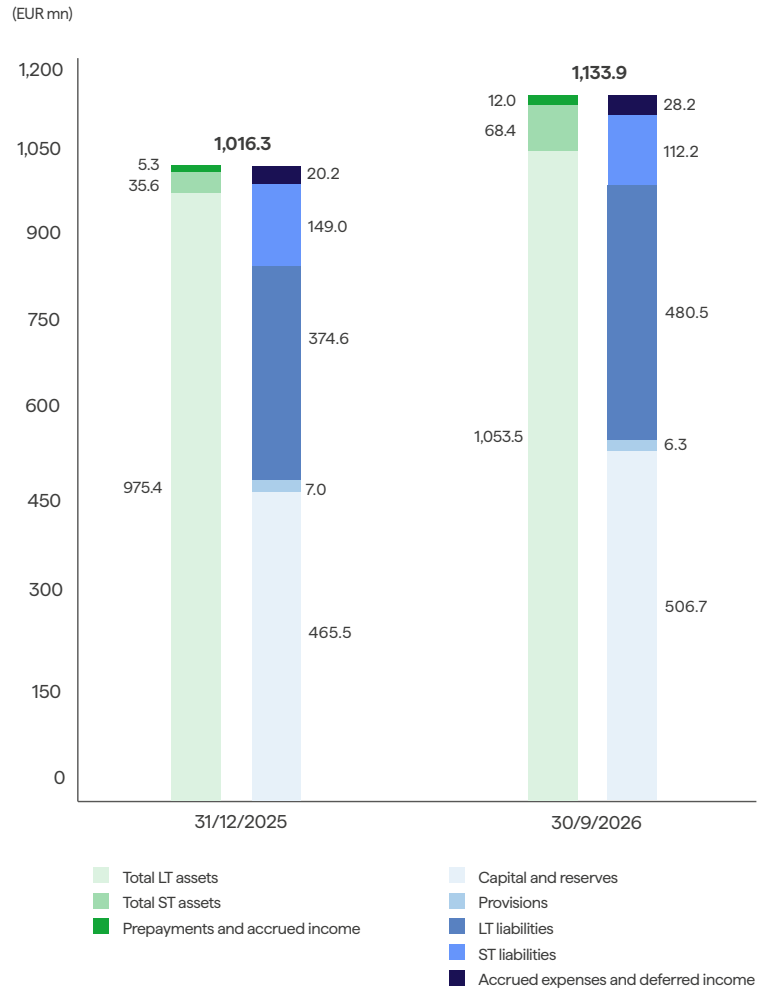

Total assets of the Group amounted to €1.1 billion as of 30 September 2026, representing an increase of 11.6% compared with 31 December 2025. Total equity and reserves amounted to €506.7 million, up 8.8% compared with year-end 2025, primarily reflecting net profit generated during the period, partly offset by total dividend payments of €38.8 million, including €33.2 million paid to Valamar Riviera shareholders.

Total long-term and short-term liabilities to banks and other financial institutions amounted to €395.3 million as of 30 September 2026, an increase of €41.3 million compared with year-end 2025. Short-term financial liabilities decreased by €53.5 million, reflecting the regular repayment of investment loans and short-term borrowings, while long-term financial liabilities increased by €94.7 million following the drawdown of long-term financing for Pical Resort, Arba Resort and other investment projects.

More than 97% of the Group's long-term borrowings consist of fixed-rate loans, loans hedged through interest rate swap (IRS) instruments, or loans with subsidised interest rates, substantially mitigating interest rate risk. In addition, the vast majority of the Group's cash inflows and its entire debt portfolio are denominated in euros, significantly reducing foreign exchange risk.

Cash and cash equivalents amounted to €17.4 million as of 30 September 2026, up €9.5 million compared with 31 December 2025. Additional liquidity reserves are provided by short-term deposits, which increased by €17.0 million compared with year-end 2025. Cash and deposits, together with available sources of financing, valuable tourism assets and strong operating cash flow generation, support the Group's stable financial position and liquidity profile.

REVENUES

Total revenue in 9M 2026 amounted to 393.6 million, representing an increase of 17.7%, or €59,2 million, compared with the same period of 2025, when total revenue stood at €334,4 million.

Sales revenue reached €379,9 million, up 16.7%YoY. Domestic revenues amounted to €53,6 million (14.1% of total sales revenues), increasing by 14.1%, or €6,6 million. Revenues from foreign markets totaled €326.3 million (85.9% of total sales revenues), increasing by 17.2% or €47.8 million, supported by strong demand across the Company's key source markets. Board revenues, representing 80.4% of the Company's total revenues, increased by 17.4% to €305.3 million in 9M 2026. The increase was primarily driven by the incremental contribution of the newly launched Pical Resort.

OPERATING EXPENSES

Material costs amounted to €110.8 million, increasing by 19.5% YoY, driven by higher spending on small inventory and workwear, maintenance, and promotional and marketing activities, including certain non-recurring costs. The increase also reflected higher operating costs resulting from growth in accommodation units sold in hotels, particularly food and beverage and energy expenses. Staff costs reached €102.1 million, up 21.1% YoY, driven by growth in average headcount and salary adjustments. The increase in material and labour costs primarily reflects the opening and operational ramp-up of Pical Resort and Sunny Poreč by Valamar. Depreciation amounted to €53.3 million, representing a 30.7% increase YoY, reflecting intensive investment cycle over the past two years.

RESULT FROM FINANCIAL ACTIVITIES

The net finance result amounted to €2.1 million in 9M 2026, compared with €1.0 million in the prior-year period. This was primarily driven by a €3.6 million increase in unrealised gains on financial assets, reflecting the increase in the fair value of interest rate swaps. Interest income, however, decreased by €0.1 million due to lower average cash balances.

Finance expenses increased by €2.6 million to €8.4 million, primarily due to a €2.7 million increase in interest expense resulting from higher utilisation of short-term borrowings, cessation of interest capitalisation on the investment loan related to Pical Resort, and interest expense related to the financing of the current investment cycle. Other finance expenses decreased by €0.1 million.

EBITDA AND PROFIT FOR THE PERIOD

The Company recorded growth in EBITDA in 9M 2026. EBITDA increased by €14.3 million to €133.6 million, up 11.9% YoY, while the EBITDA margin stood at 34.9% (-1.6 pp). Growth was primarily driven by stable demand and the contribution from new and upgraded capacity, led by Pical Resort and Sunny Poreč by Valamar, which further enhanced the quality of the Company's portfolio and supported revenue growth. TThe lower adjusted EBITDA margin primarily reflects higher costs associated with the first year of operation of newly opened and repositioned properties, including certain non-recurring opening-related costs.

EBT amounted to €82.4 million, representing an increase of 3.6% or €2.8 million compared with the prior-year period, as the impact of higher depreciation and the net finance result was more than offset by EBITDA growth.

Net profit in 9M 2026 amounted to €66.7 million, up €0.7 million YoY (+1.0%). The Company recognised an estimated income tax expense of €15.7 million, primarily related to current tax. This estimate is based on currently available information and is not indicative of the final income tax expense for the 2026 financial year. Given the seasonal nature of the Company's operations and the expected net loss in 4Q 2026, EBT for the full year 2026 is expected to be lower, while the recognition of tax incentives related to investment projects during 2026 is expected to reduce the income tax expense.

ASSETS AND LIABILITIES

Total assets of the Company amounted to €908,7 million as of 30 September 2026, representing an increase of €97.5 million, or 12.0%, compared with 31 December 2025.

Total equity and reserves amounted to €445.7 million, up 7.1%, primarily reflecting the net profit generated during the period and the dividend distribution.

Cash and cash equivalents amounted to €6.2 million as at 30 September 2026, an increase of €4.4 million compared with 31 December 2025. The Company's cash position, together with available sources of financing and its valuable tourism assets, provides a stable balance sheet position.

Investment cycle 2025/26

Pical Resort 5*, Valamar Collection, Poreč

Valamar Group is finalising the 2025/2026 investment cycle, valued at €208.1 million, focused on further enhancing portfolio quality, developing premium products and strengthening its long-term market position. Of the originally announced €245.5 million investment cycle, three projects with a total value of €37.3 million will be carried forward and completed as part of the 2026/2027 investment cycle: a new laundry facility, the Valfresco central kitchen and employee accommodation in Poreč.

The key investments within this investment cycle include the completion of Pical Resort and Sunny Poreč by Valamar, the commencement of the reconstruction of Hotel Diamant and the continued development of Arba Resort on the island of Rab. Alongside investments in accommodation facilities and amenities, the Group continues to invest in digitalisation, sustainability and the modernisation of its operational infrastructure.

VALAMAR GROUP INVESTMENT CYCLE 2025/2026 **€208 MN**

VALAMAR RIVIERA

The planned investments of Valamar Riviera in the 2025/2026 cycle amount to €190.7 million. These investments are aimed at improving business processes, enhancing operational performance, raising the quality of facilities and services and increasing energy efficiency and digitalisation.

The largest single capital expenditure in this cycle was allocated to the finalisation of construction of Pical Resort 5*, amounting to €85 million, which includes interior refurbishment and landscaping of outdoor areas. More than an additional €16 million has been invested in the development of Pical Beach and its accompanying facilities, including promenades and Purobeach, the first international beach club brand in Croatia.

After more than 18 months of construction, the hotel opened in March 2026 as Valamar's new flagship property. Pical Resort comprises 513 accommodation units, a congress infrastructure with a capacity of up to 1,200 participants and a wide range of additional amenities as well as international partnerships, including an ESPA-branded spa centre and Purobeach Club, an international lifestyle concept combining a beach club, gastronomy, music, wellness and retail offerings. A comprehensive and diverse offering has been designed for families, including PlayLand, a family entertainment and learning centre spanning 1,200 m², with a variety of creative, educational and recreational activities for all age groups. The offering is further complemented by a Fun Zone with children's playgrounds, as well as Valamar's Maro Club with carefully designed programmes for children, alongside a broad range of additional amenities tailored to family holidays.

PICAL RESORT OPENED IN MARCH LANDMARK **€200+ MN** INVESTMENT

Among other significant investments in this cycle, particular emphasis is placed on the repositioning and rebranding of the existing Crystal Hotel and Diamant Apartments into Sunny Poreč by Valamar 4*. The total investment amounts to €36.5 million. A total of €16.2 million has been invested in this hotel, including the reconstruction of all accommodation units, the expansion of the restaurant, the refurbishment of children's facilities and an additional parking lot. €8.9 million was invested in the Diamant Apartments, covering the refurbishment of 128 accommodation units. As part of this investment project, a further €11.4 million has been invested in Aquamar water park, including a new children's pool with attractions and slides, a refurbished sunbathing area equipped with new facilities and Oliva restaurant. The reconstruction works were successfully completed, and the hotel reopened on 1st July 2026.

VALAMAR DIAMANT HOTEL RECONSTRUCTION COMMENCED

Reconstruction works on Valamar Diamant Hotel commenced in early September, marking one of the key projects within the 2026/2027 investment cycle. As part of the 2025/2026 investment cycle, €12.2 million will be invested in the first phase of the project, which includes the refurbishment and redesign of family rooms, the expansion of the restaurant and fitness centre, upgrades to infrastructure and parking facilities, and the development of the Aquamar Zone, a shared water park for Valamar Diamant Hotel and Sunny Poreč by Valamar.

Another significant investment in hotel capacities, with an investment totalling to €1.4 million, relates to the refurbishment of bathrooms in 85 accommodation units and the upgrade of the sewage system in a part of Sunny Baška hotel. The works were completed in May, before the opening of the hotel for the season.

Within this investment cycle, Valamar Riviera invested in the expansion and upgrading of accommodation capacities and related facilities in other hotels and campsites as well, including Valamar Camping Lanterna 4*, Valamar Camping Istra 5*, Valamar Camping Marina 4*, Valamar Camping Ježevac 4* and Valamar Camping Krk 5*. The reconstruction of six villa rooms with additional jacuzzi bathtubs at Girandella hotel has been completed, as well as the refurbishment of

rooms at Bellevue hotel in Rabac. The total value of these investments amounts to approximately €4.5 million.

In the 2025/2026 investment cycle, approximately €18.9 million has been invested in capital maintenance, €1.0 million in the procurement of furniture and equipment and €700 thousand in beach landscaping.

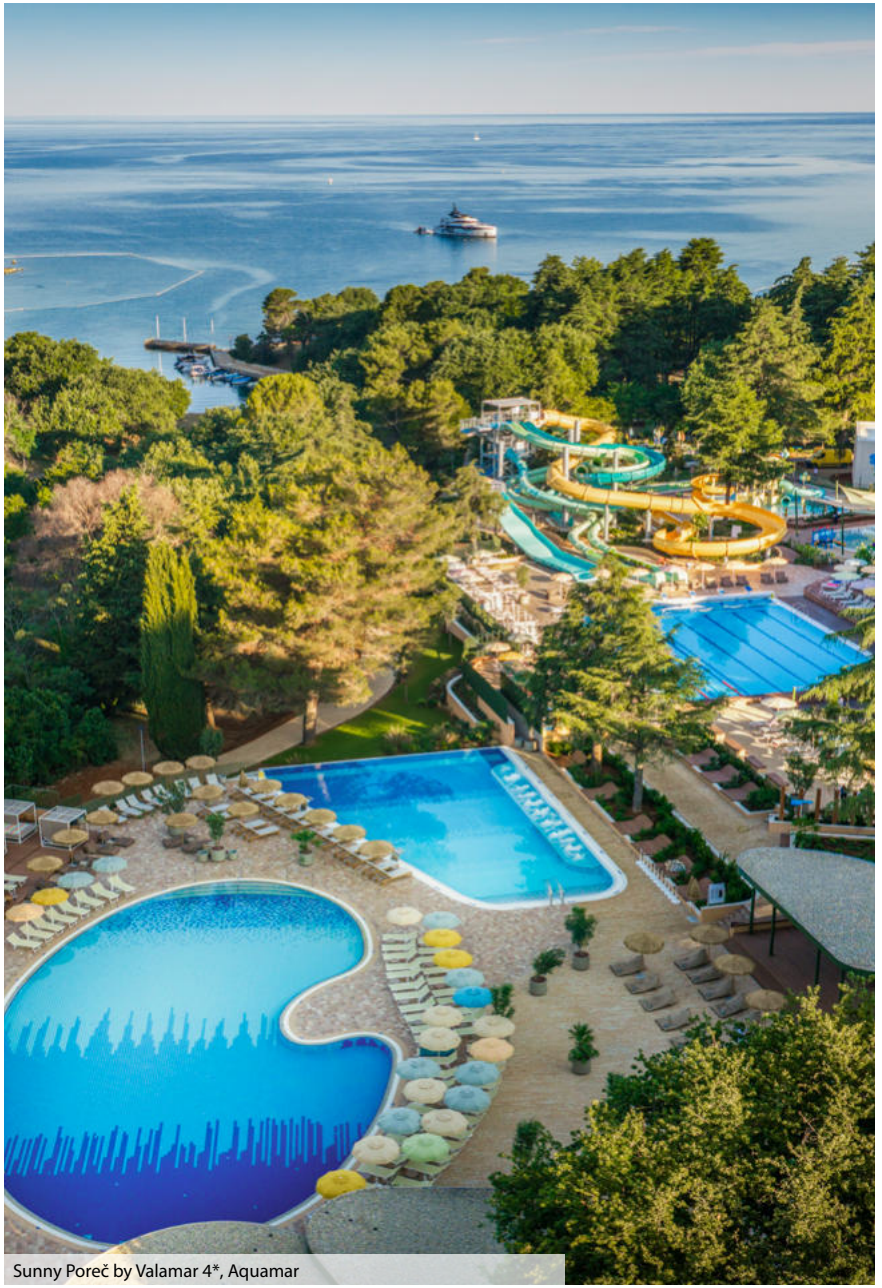

As part of this investment cycle, Valamar Riviera, together with Imperial Riviera and the City of Poreč, is participating in the Parenzana project, which includes, among other, the construction of bike & jogging trail and promenade. The total value of the investment amounts to €6.2 million, of which Valamar Riviera is contributing €4.3 million. Upon completion of the planned works, the promenade and the trail were opened and made available to guests, local residents and other visitors.

VALAMAR GROUP INVESTS IN DIGITAL TRANSFORMATION

The Company places strong emphasis on sustainable and socially responsible business practices. Accordingly, more than one million euros has been invested in sustainability projects, including the procurement of electric vehicles, tree planting, landscaping, installation of filters on biocomposters, installation of new heat pumps, registration of forest plantations, decarbonisation, installation of an electric boiler in hotel Sunny Krk by Valamar and other projects.

Through developing digitalisation, we aim to continuously improve the quality of our services. This is why, in this investment cycle, we have invested approximately €5.5 million in digitalisation and innovation projects. An additional €800 thousand has been invested in IT maintenance projects and over €750 thousand in branding and signage.

Through continuous investment in new projects, Valamar Riviera is building a sustainable and recognisable future for its tourism products. Accordingly, €400 thousand has been allocated in this investment cycle for the development of future projects.

INVESTMENTS IN IMPERIAL RIVIERA 2025/2026
€17 MN

IMPERIAL RIVIERA

Imperial Riviera is finalising its 2025/2026 investment cycle, with a total value of €17.4 million.

The investments are focused on repositioning and improving service quality, digitalisation, green building, sustainable energy sources and tourism infrastructure across all destinations in which the company operates.

The largest project relates to the construction of additional accommodation capacities and new water attractions at Arba Resort, Valamar Collection, where the construction has already commenced and its opening is planned for 2027. Works include the construction of an Arba Resort annex, comprising a building with 45 new family accommodation units and a swim-up pool in the basement as well as 29 bungalows and two villas. The construction of two water slides measuring 11.5 metres and 8.5 metres in height as the first phase of the Aquamar project at Arba Resort has been completed. This investment has further enhanced the resort's offering and attractiveness.

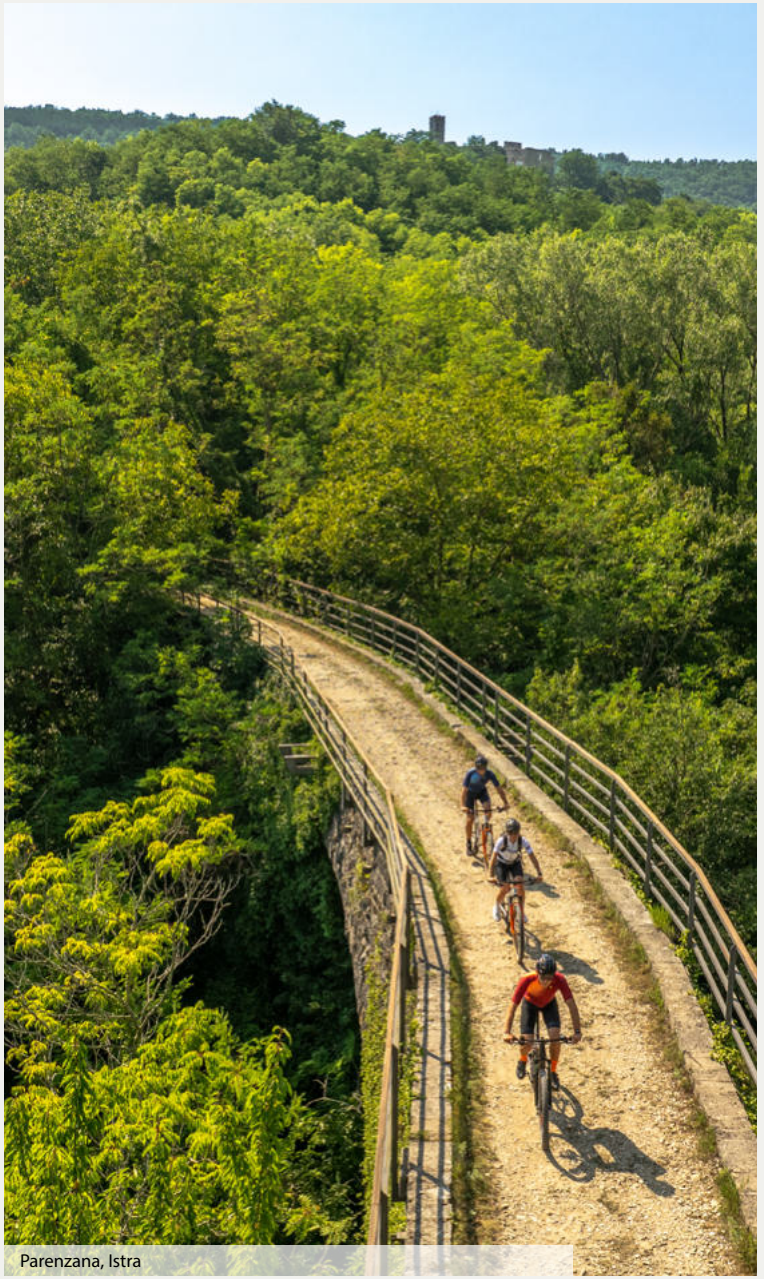

The refurbishment and conversion of the former casino within Valamar Meteor Hotel into a modern wellness centre has been completed. This represents one of the most significant investment within the current investment cycle. The new wellness centre features saunas, a jacuzzi, couples' rooms with private jacuzzies, a relaxation zone and other accompanying facilities.

As part of this investment cycle, Imperial Riviera is participating in the Parenzana Project, together with Valamar Riviera and the City of Poreč. The project includes, among other, the construction of bike & jogging trail and a promenade. Upon completion of the planned works, the promenade and the trails were opened and made available to guests, local residents and other visitors.

In the Rab destination, modernisation and refurbishment of two sanitary facilities at Valamar Camping San Marino 4* has been completed, alongside the upgrade of camping plots.

In the Makarska destination, two composters with associated containers have been procured, intended biowaste processing for all three hotels in the destination. Within this investment, an electric vehicle for waste collection has also been procured.

SUSTAINABILITY HIGHLIGHTS

In June, Pical Resort 5*, Valamar Collection, the most significant project in the recent history of Croatian tourism, was officially opened in Poreč. Through this €200 million investment, Valamar is transforming the destination of Poreč while also taking a major step forward for Croatian tourism as a whole towards higher value-added tourism, a premium offering and year-round operations.

JUNE 2026: GRAND OPENING OF PICAL RESORT

Valamar Group continues to develop its portfolio in line with high sustainable construction standards:

- Marea Suites 5*, Valamar Collection in Poreč was awarded the DGNB Building in Use Platinum Certificate, the highest level of recognition within one of the leading international sustainability certification systems. The certificate confirms the high standards implemented by Marea Suites in energy and resource management, guest well-being, sustainable mobility, local community engagement, and strategic and responsible business management
- Pical Resort 5*, Valamar Collection and Arba Resort 4*, Valamar Collection on the island of Rab were awarded the DGNB Gold Precertificate by the Croatian Green Building Council, one of the highest international recognitions in the field of sustainable construction.

MAREA SUITES AWARDED THE PLATINUM DGNB BUILDING IN USE CERTIFICATE

Valamar continues its membership in the UN Global Compact, the Energy & Environment Alliance (EEA) and the Global Sustainable Tourism Council (GSTC), supporting the principles of responsible business conduct and promoting global standards and initiatives for more sustainable tourism.

ESG PROJECTS AND ACHIEVEMENTS

Environment

Valamar reduced its carbon footprint by 69% compared with 2015 through the use of 100% renewable electricity and 74% renewable energy in total energy consumption. Direct measures aimed at reducing the carbon footprint include electricity generation from its own photovoltaic power plant, the installation of LED lighting, the replacement of fossil fuels with electricity from renewable sources, the installation of heat pumps, the use of electric vehicles and other energy-efficiency measures. Additional indirect measures include waste separation at levels above the EU average, the composting of food waste, resulting in the production of 341 tonnes of compost, cooperation with local suppliers, and the application of the highest green building standards in investments in tourism facilities and infrastructure.

The “Ready, Plant, Grow” initiative is being implemented across Valamar’s hotels and campsites, enabling guests to contribute to environmental planting and landscaping activities through donations, which are further supported by Valamar’s own contribution. Funds collected during 2026 will be allocated to environmental greening projects in selected areas in cooperation with local partners.

Valamar also supported the Refill Hvar – Pour It Up for Less Plastic project, aimed at reducing the use of single-use plastics through the expansion of the public drinking water fountain network on the island of Hvar, providing local residents and visitors with easier access to drinking water for refilling reusable bottles. The project is led by the “Moj škoj” Association for Sustainable Community Development from Zavala and is implemented in partnership with the Sunce Association and in cooperation with the Municipality of Jelsa and the Jelsa Tourist Board, with support from the Dalmatian Islands Environment Foundation (DIEF).

Social

Valamar is the largest investor in Croatian tourism with more than €1.2 billion invested in the last twenty years in the development of sustainable high quality and added-value tourism. Investments in corporate social responsibility are primarily focused on employees, their working conditions and training, destination development through investments in tourist infrastructure such as promenades, cycling paths, playgrounds and beaches, support for cultural and sports events and numerous other initiatives aimed at raising the quality of life in the local communities.

For the nineth year in a row, Valamar was once again proclaimed to be the most desirable employer in the tourism and hospitality industry and it is the only tourist company on the list of the 20 best Croatian employers of the MojPosao portal.

VALAMAR THE MOST DESIRABLE EMPLOYER IN TOURISM

Valamar’s photography competition, “Along the Parenzana Trail”, concluded with the selection of photographs by ten Croatian photographers. The selected works are used for promotional and artistic purposes and are displayed at Pical Resort 5*, Valamar Collection. Through this competition, Valamar continues to support initiatives in the fields of art and culture, a tradition in Poreč dating back to the 1960s.

As part of its annual donations programme in 2026, Valamar supported 17 projects undertaken by vocational primary and secondary schools specialising in hospitality and tourism across Croatia. The donations were allocated to projects focused on the development of students' practical knowledge and skills, the modernisation of teaching programmes, professional training and the procurement of equipment..

VALAMAR CONTINUES TO ADVANCE SOCIALLY RESPONSIBLE INITIATIVES

An agreement was signed between Valamar and the Sports Association of the City of Poreč on the use of the swimming pool at Pical Resort by Poreč sports clubs. During the same time slots in which the pool is available to the city's sports clubs, it is also open to the residents of the City of Poreč. Following the end of the summer season, training sessions will resume in the indoor pool, ensuring continuity of training and high-quality conditions for the development of young athletes throughout the year.

Around 200 children from the island of Rab visited the Maro Club at Valamar Padova Hotel and the Maro Club at Arba Resort in June as part of a collaboration between Valamar, Imperial Riviera and local kindergartens.

Croatia Summer Camp powered by Valamar, a socially responsible initiative bringing together the best children's summer camps across Croatia, successfully completed its third season. During the season, 2,680 children and young people participated in 78 sports, educational and arts camps held at 15 locations throughout Croatia. As part of the initiative, Valamar once again organised the "Croatia Summer Quest" prize competition, awarding one hundred summer camp vouchers to children and young people aged 6 to 18 residing in Croatia.

HUMAN RESOURCES

Valamar Group is continuing its significant investments in employees this year and, in agreement with social partners, has increased base salaries as of 1 May 2026 by raising the base by 5%, along with additional increases in pay coefficients for more than 30% of job positions.

VALAMAR INCREASED EMPLOYEES' BASE SALARIES BY 5%

Earnings for skilled positions, i.e. chefs, waiters and receptionists, range between €1,500 and €2,000 net at the peak of the season (June to August), while earnings for housekeepers, assistant chefs, assistant waiters, kitchen staff and servers range from €1,000 to €1,400 net.

Valamar is one of the largest employers in Croatia. As at 30 September 2026, Valamar Group employed a total of 7,956 employees, including 3,240 permanent employees and an additional 1,007 employees with year-round income under fixed-term contracts. As of the same date, the Company had 6,076 employees, comprising 2,588 permanent employees and a further 738 employees with year-round income.

The ValamarGO! programme continues as a key initiative for the structured onboarding of new employees. The programme has been successfully implemented for the fourth consecutive year across all destinations. It includes five-day training sessions for kitchen, restaurant and front desk employees, led by internal mentors.

VALAMAR CONTINUES TO ADVANCE INNOVATIVE EMPLOYEE PROGRAMMES AND BENEFITS

Valamar continuously introduces new initiatives, enhances employee remuneration and develops new employee benefits. As a natural continuation of this strategy and its ongoing investment in people, last autumn Valamar launched the 9+ Programme, a new employee reward and retention programme that represents a strategic step forward in the domestic labour market. The programme is designed to recognise and retain the Company's highest-performing seasonal employees while strengthening the continuity and quality of its loyal and skilled workforce. It

offers employees the security of stable, long-term employment combined with the flexibility and work-life balance associated with seasonal work through three key pillars: long-term stability, a guaranteed employment period of 9 months each year and a financial incentive in the form of an €800 reward.

Valamar continues to foster a supportive working environment by investing in employee development, continuously increasing salaries, implementing reward programmes and offering a wide range of benefits designed to improve the quality of life of employees and their families. At the same time, the Company continues to implement numerous initiatives aimed at aligning the working environment at Valamar with contemporary workplace trends and the evolving needs of its employees The 'Live the Destination' initiative is part of such initiatives. It ensures that all employees living in Valamar's destinations as well as employees who permanently move to Valamar's destinations, as of this year receive an additional €600 net. This measure aims to boost local employment, mobility and year-round employment. It offers a range of additional benefits to Valamar's employees. Within the 'Roof Over Your Head' programme, Valamar offers its permanent employees the possibility to be eligible for an add-on of up to €500 per month for co-financing their apartment rent. Besides that, all employees are entitled to a 30% discount in Valamar's restaurants and bars and various discounts and benefits with a series of external partners, including banks, transport providers, polyclinics, opticians and other destination services ranging from health to entertainment services. In addition, Valamar employees can work during winter in Valamar hotels on ski resorts in Austria, and thus have an additional stability through a year-round income. Special attention is also paid to employees' families – for example, through the Valamar Playroom, where employees' children are cared for in a stimulating, safe and professionally managed environment. This enables their parents to enjoy greater flexibility and achieve a better work-life balance. All these benefits are part of the broader Valamar's strategy aimed at creating a work environment where employees can build long-term careers while enjoying a higher quality of life for themselves and their families.

Valamar has made the health and well-being of its teams one of its top priorities by introducing a significant new employee benefit – supplementary health insurance for permanent employees. This initiative has been designed to provide employees with faster, simpler and higher-quality access to healthcare services. Under the supplementary health insurance policy, employees are entitled each year to one comprehensive medical check-up, two specialist consultations and any related diagnostic tests deemed medically necessary. One of the programme's greatest advantages is its exceptionally extensive and easily accessible network of healthcare providers.

VALAMAR IS THE LARGEST PROVIDER OF SCHOLARSHIPS IN CROATIA

In 2026, Valamar Group continues its cooperation with hospitality schools and universities, and, in partnership with the Ministry of Tourism and Sports, implements a scholarship programme that provides financial support to secondary school pupils during their education, as well as opportunities for internships and the acquisition of new skills and knowledge. Valamar is the largest provider of scholarships in Croatia. In the school year 2025/2026, Valamar has thus granted scholarships to 233 secondary school pupils and 52 university students.

VALAMAR IMPLEMENTS A LONG-TERM EMPLOYEE DEVELOPMENT AND RETENTION STRATEGY

As an employer, Valamar actively participates in a range of initiatives aimed at promoting careers in tourism and hospitality. Through presentations and lectures for pupils and students, as well as participation in events dedicated to employment and career development, young people are encouraged to pursue education and careers in tourism. Students and pupils also have the opportunity to hear directly from employees what it is like to work for Croatia's largest tourism company and to learn about the benefits of working at Valamar and the career development opportunities it offers. In addition, the Company continuously contributes to the quality of education through lectures by its experts in schools, organised pupil visits to Valamar's hotels and campsites and other forms of collaboration with educational institutions, helping young people gain a better understanding of the actual demands of the job.

The Company and the Group have been systematically and continuously investing in the development of its human resources. This includes an integral strategic approach to HR management with transparent recruitment process, clear goals, employee performance monitoring, investing in employee development as well as their career path and encouraging two-way communication.

Governance

STRONG CORPORATE GOVERNANCE PRACTICES

Valamar promotes open and transparent communication with guests, employees, investors, local communities, business partners and other key stakeholders and conducts its business in accordance with the principles of responsibility, transparency and good corporate governance.

Valamar's properties are certified in accordance with the ISO 9001 (Quality), ISO 14001 (Environment) and ISO 50001 (Energy) standards. Twenty-eight hotels hold the Travelife certification, while six campsites and one hotel have been awarded the EU Ecolabel. Three hotels hold the EcoStar certification, and 17 beaches have been awarded the Blue Flag. In 2026, the Travelife certification was extended to one additional hotel compared with the previous year.

As many as six Valamar's hotels have been awarded with the prestigious HolidayCheck Award 2026. These awards are based exclusively on authentic guest reviews, confirming the high level of guest satisfaction with Valamar's service.

Valamar's campsites once again stood out at the European level this year, receiving excellent ratings and prestigious awards. Five Valamar campsites were awarded the highest ADAC Superplatz 5* rating, while an equal number were ranked among the ANWB Top 2026, confirming Valamar's position as a leader in camping tourism.

Valamar Camping Lanterna was ranked among the ten best campsites in Europe based on guest ratings by the European Camping Group (ECG), one of Europe's leading camping and outdoor hospitality groups. It also achieved an excellent 5th place in the PiNCAMP Most Wanted 2026 ranking of the 100 most sought-after campsites in Europe among German guests. The following Valamar campsites were also included among the 100 most sought-after campsites in Europe: Valamar Camping Istra, Camping Solaris, Camping Orsera, Valamar Camping Krk, Valamar Camping Ježevac and Valamar Camping Baška.

The latest edition of MICHELIN Guide Croatia brought outstanding recognition for Valamar's gastronomic offering in Poreč. Just three months after its opening, Harry's Piccolo was awarded its first MICHELIN Star, becoming the first restaurant in Poreč to receive this prestigious distinction. At the same time, Spinnaker and JAZ by Ana Roš were included in the MICHELIN Guide as MICHELIN-recommended restaurants, further confirming the growing quality and international recognition of Valamar's culinary offering.

ESPA at Pical was awarded the Spa of the Year 2026 title at the Destination Deluxe Awards & Wellness Summit in Bangkok, a leading international event in the wellness and luxury travel industry. The awards attracted more than 1,000 nominations, with some of the world's most renowned luxury hotels, resorts, spas and wellness brands from leading tourism destinations competing for recognition.

The Risks of the Company and the Group

Valamar Camping Istra 5*, Poreč

In their day-to-day operations, the Company and the Group are exposed to a number of risks.

The Company and the Group have identified the following as their main risks:

- **BUSINESS RISKS:** related to the business operations, business environment, competition, supply and demand, lack of workforce and continuous adjustment to market needs
- **FINANCIAL RISKS:** comprise financial variables that can have negative impact on meeting liabilities of the Company and the Group and impact liquidity or debt management
- **OPERATIONAL RISKS:** are associated with inadequate use of information and procedures, IT systems, as well as shortcomings in operational management
- **GLOBAL RISKS:** include climate change, natural disasters and catastrophes, pandemics, food shortages, civil unrest, wars and other risks over which the Company and the Group have no (direct) control
- **REGULATORY AND LEGAL RISKS:** relate to changes of laws, tax and other legislation governing the business operations of the Company and the Group and the lack of certainty of outcome of court proceedings
- **ESG RISKS:** were identified through the Group's double materiality assessment and are described in detail in the Sustainability Report included in the Annual Report.

The Company and the Group apply a proactive approach to risk monitoring and assessment, whereby risk management is considered one of the key differentiation factors in a competitive environment. The objective of risk management, in addition to risk diversification or elimination, is to encourage the creation of sustainable value and to strengthen the trust of all stakeholders of the Company and the Group. When defining strategy, particular attention is paid to the impact of risks in the short and medium term in order to ensure the long-term continuity of successful operations.

The risk management process consists of the following steps:

- identification of potential risks in operations
- analysis and assessment of identified risks
- definition of activities and allocation of responsibilities for effective risk management
- supervision and monitoring of initiatives aimed at preventing the occurrence of risk events and mitigating their consequences
- exchange of information on the results of risk management.

BUSINESS RISKS

The business risks of the Company and the Group primarily include:

- seasonality of operations
- frequently changing market requirements
- labor shortages
- risk of dependence on key management
- reputational risk
- risk of unsuccessful or delayed investment projects.

Seasonality of operations is driven by a combination of climatic factors (temperature, precipitation and daylight duration), as well as other factors such as the timing of school holidays and the use of annual leave. Accommodation capacities are predominantly utilised for summer leisure tourism, the performance of which is largely determined by natural conditions. The business operations of the Company and Group are highly dependent on the results achieved during the high season, which generates around 52% of the total turnover in July and August. The Group's strategy is focused on reducing business seasonality, with the aim of generating approximately 50% of revenue outside the peak summer season in July and August.

Tourism is a specific activity that is constantly in flux, going through quick trend changes. This requires tourist companies to continuously adapt to survive on the market for the long term. The Company and the Group are exposed to business risks connected with the stability of global tourist trends. There is also a risk of competition in the market, as other comparable tourist destinations and companies continuously invest in capacity development and marketing activities. To mitigate these risks, the Company and the Group continuously invest in expansion and quality engagement of its accommodation capacities as well as in development of additional amenities and are currently the largest investors in the Croatian tourism. The development of new technologies considerably changes guest habits and the way how they plan and make reservations for their holiday. The ever present trend of simplicity of online reservations continues to strongly impact the dynamic of selecting the destination and accommodation. The Company and the Group realised 65% of their 2025 revenue via direct channels, including reservations via a direct distribution system – call centre, internet and mobile platforms and the loyalty programme. The loyalty programme will continue developing with the

aim of creating additional value for our clients. Also, web pages, e-marketing and technology will continue to develop. The Company considers brand recognition, reputation and a long-standing presence in the market to be key factors in adapting to changing market demands and strengthening the competitive position of the Company and the Group.

The development of the Company and Group is not possible without a high-quality human resources management. Given the negative trends of labour outflow from the Republic of Croatia, particularly pronounced in the tourism sector, there is a risk of a shortage of qualified and experienced workforce required for successful operations and the implementation of the development strategy. In order to mitigate this risk, the Company and the Group engage foreign workers where necessary and invest additional resources in employee training and development. We continuously improve incentive and reward systems, employee career development, health care and accommodation and foster collaboration with education institutions throughout Croatia. This positions Valamar as one of the most desirable employers in the country.

The operations and development of the Company and the Group are to a significant extent dependent on the knowledge, experience and continuity of service of members of the Management Board, senior management and other key employees. Given the scale and complexity of operations, including the management of a large number of tourism properties and development projects, the loss of one or more key members of management or specialised experts could adversely affect management continuity, operational efficiency and the implementation of strategic initiatives. The tourism sector is characterised by pronounced seasonality and strong competition for experienced managerial and specialist profiles in both domestic and international labour markets, which may hinder the timely attraction, retention and effective succession of key roles. Failure to effectively manage these risks could have an adverse effect on the operations and performance of the Company and the Group.

The operations of the Company and the Group are exposed to reputational risk, which may arise from negative perceptions among guests, investors, business partners, employees or the wider public. The reputation of the Company and the Group depends on brand strength and recognition, as well as the trust of market stakeholders, and may be adversely affected by a range of factors. These include negative guest reviews, unfavourable media coverage, incidents related to guest safety, personal data protection, service quality, working conditions, or environmental and community impact. Additional reputational risk may arise from non-compliance with applicable laws and regulations or expected standards of sustainable business practices, including ESG criteria, as well as from inadequate crisis management. Any significant damage to reputation could result in reduced demand for the Company's and the Group's services, a decline in revenue, deterioration in relationships with business partners, and challenges in attracting and retaining qualified workforce. All of this could have an adverse effect on the financial position and operating results of the Company and the Group.

The Company and the Group are also exposed to the risk of unsuccessful or delayed investment projects, particularly those related to the development of hotels, resorts and campsites that are of strategic importance to their operations and future growth. The implementation of such projects is subject to operational and regulatory risks, including delays in construction works, increases in the cost of construction materials and services, shortages of qualified labour and dependence on the timely obtaining of required permits and approvals from competent authorities. The materialisation of these risks could lead to cost overruns, extended project completion timelines, and delays in generating the expected revenues and cash flows, which could negatively impact the operations, financial position and performance of the Company and the Group.

FINANCIAL RISKS

In the course of their day-to-day operations and activities, the Company and the Group are exposed to a number of financial risks, in particular:

- interest rate risk
- credit risk
- liquidity risk
- inflation risk
- risk of impairment of non-current assets
- refinancing risk
- foreign exchange risk.

Interest rate risk

Interest rate risk is primarily associated with changes in benchmark interest rates on variable-rate borrowings, whereby an increase in such rates may lead to higher interest expenses, while a decrease has the opposite effect. The overall level of interest rates is also influenced by the country risk premium and the credit rating of the Company and the Group with financial institutions, as these determine the interest margin above the benchmark rate.

To decrease its interest rate risk, the Company and the Group regularly implement interest rate hedging using interest rate swaps (exchange of the variable interest rate with a fixed interest rate). This effectively converts variable interest rate loans to fixed interest rate loans. An interest rate swap has the economic effect of converting a portion of variable-rate borrowings into fixed-rate borrowings for a pre-agreed portion of the principal. In addition, subsidised interest rate loans are also used within the financing structure. The impact of interest rate risk to business is limited since the majority of the loan portfolio of the Company and the Group are long-term loans with an agreed fixed interest rate or loans insured with an interest rate swap.

The Company and Group have interest-bearing assets (cash assets and deposits) that generate revenues from interest rate so their revenue and cash flow depend on changes in market interest rates. This risk is especially pronounced in the high season when the Company and the Group have significant cash surpluses at their disposal. Cash placements are mostly done for a short term, at market interest rates.

Credit risk

Credit risk represents the possibility that a counterparty will fail to meet its contractual obligations in a timely manner, which could adversely affect the financial position of the Company and the Group. According to the Company's and the Group's sales policies, collaboration is contracted only with customers with an acceptable credit history, or by agreeing advance payments, bank securities and payment via credit cards. To decrease credit risk, the Company and the Group continuously monitor their exposure to business partners and their creditworthiness. The Company and the Group obtain instruments for securing receivables, such as debentures, bank guarantees and mortgages, thus reducing the risks of inability to collect their receivables. The maximum exposure to credit risk is equal to the carrying amount of receivables, as these are measured at their recoverable amount.

Exposure to credit risk also arises due to cash and deposits with business banks. To diversify this risk, a maximum exposure level has been set for each bank and the relevant qualitative and quantitative bank financial stability indicators are continuously monitored. The Company and the Group primarily deposit cash with domestic banks whose foreign parent institutions, according to the credit rating agency Standard & Poor's, hold investment-grade credit ratings ranging from A+ to BBB.

Liquidity risk

Liquidity risk represents the possibility that the Company and the Group will not be able to meet their obligations to creditors as they fall due. The Company and the Group have a sound liquidity risk management. Sufficient funds for meeting liabilities are available at any given moment through adequate amounts from contracted credit lines for investments and working capital.

The repayment of credit lines are in line with the period of significant cash inflows from operating activities. The Company and the Group continuously monitor planned and actual cash flows, as well as the maturities of receivables and payables to customers, suppliers and credit and other financial institutions. The Company and Group monitor the liquidity through daily cash and short-term and long-term debt reports. Surplus cash is invested in current accounts and time deposits. Only instruments with suitable maturities and sufficient liquidity are selected, according to the forecast needs for liquid funds.

Notwithstanding the liquidity management measures implemented, extraordinary circumstances beyond the control of the Company and the Group, such as significant disruptions in the macroeconomic environment, geopolitical risks or natural disasters, could adversely affect revenues and cash flows and lead to the materialisation of liquidity risk in a given period.

Inflation risk

Inflation risk is reflected in the general exposure of the Company and the Group to rising price levels, which may adversely affect operating costs and financial stability.

The Company and Group are exposed to changes of purchase prices for energy products (especially electricity), food and beverages, consumables and rise in prices for construction works and purchase of assets. The Company and the Group

have been continually making investments in energy efficiency and renewables to mitigate the impact of energy products price rises and decrease their dependence on suppliers. Where appropriate, when doing procurement the practice is to enter into long-term contracts at fixed prices. Inflation is further reflected in rising labour costs, including wage increases, which represent a significant share of total operating costs. The Company and the Group continuously monitor the impact of inflation on input cost variables and undertake available measures to mitigate its adverse effects on operations.

One of the ways how to mitigate the negative impact of inflation is the flexible management of sales prices for goods and services. The Company and the Group have a very high share of direct sales channels and online sales channels, which enables a dynamic sales price formation throughout the year.

Risk of impairment of non-current assets

The Company and the Group are exposed to the risk of impairment of non-current assets due to adverse changes in market conditions relevant for the valuation of hotel properties, campsites and related facilities, including movements in market prices and discount rates. Although non-current assets are recognised in the accounting records at their carrying amount rather than fair value, a significant and sustained deterioration in market conditions could result in the need to recognise an impairment of assets. The materialisation of this risk could adversely affect the operating results and certain financial indicators of the Company and the Group.

Refinancing riskk

The Company and the Group are exposed to refinancing risk arising from the need to settle or refinance existing financial liabilities at their maturity. The ability to refinance depends on market conditions, including the level of interest rates, the availability of financing and the liquidity of financial markets, as well as on the credit profile of the Company and the Group. The materialisation of this risk could result in less favourable financing terms or limitations on available funding sources, which could adversely affect the liquidity, financial flexibility and performance of the Company and the Group.

Foreign exchange risk

The Company and the Group operate internationally, as reflected in overnight stays generated from various source markets. Following the Republic of Croatia's accession to the eurozone on 1 January 2023, almost 100% of revenues and cash inflows are generated in euros. As a result, foreign exchange risk (the potential loss arising from changes in exchange rates) has been almost entirely eliminated.

OPERATIONAL RISKS

Operational risks are risks connected with direct or indirect losses that arise from inadequate or wrong internal or external processes within the Company and the Group. The complexity and size of an organisation increase operational risks and this is why building quality processes is a cornerstone of successful management of these risks. Inefficient processes, inadequate internal controls or non-compliance with established procedures could lead to disruptions in operations and adversely affect the operational efficiency of the Company and the Group.

In today's digital age, information and cyber security have become the key interest domains for any company that wishes to protect its key information assets. Information, as one of the most important currencies and the foundation of any business system, are often the target of attacks. The information security risks include unauthorised access, stealing data, malicious attacks and technical malfunctions, while cyber security comprises the protection of networks, systems and data against digital threats. A timely recognition and management of these risks is of key importance for ensuring business continuity as well as the trust of our guests.

Being aware of the risks concerning the reliability of business IT solutions and cyber security, the Company and the Group continuously invest in improvement, development and implementation of new technologies and protection mechanisms in our everyday business operations. A particular focus is placed on ensuring sufficient resources for the development and implementation of new ICT technologies, data protection projects and improvement of the existing and the development of new robust business systems. Over the years, Valamar has implemented several projects and made several investments aimed at increasing the security, stability and efficiency of its ICT infrastructure. By optimising incident management process, implementing a 24 monitoring system and consolidation into a single ICT platform, the Company has ensured a more efficient infrastructure and data protection. However, the risk of significant cyber security incidents cannot be entirely excluded.

In the course of their operations, the Company and the Group collect, process and store personal data of employees, guests, business partners and other stakeholders, and are therefore exposed to risks related to personal data protection and compliance with applicable regulations. In case of incidents of personal data violation, the Company and the Group may be significantly fined, along with a possible harmful effect to the Company's reputation. The Company has been continuously working on training its employees and raising their awareness about the importance of personal data protection and information security.

GLOBAL RISKS

Despite improved security and political conditions, Croatian tourism continues to face challenges such as:

- global economic and financial crises that reduce the purchasing power of populations in key source markets and in the Republic of Croatia
- security and political risks related to the threat of terrorism globally and in the surrounding region
- global crises caused by armed conflicts.

The business results of the Company and the Group may also be affected by various environmental factors, including:

- climate change, such as global warming and prolonged periods of drought or rainfall
- natural disasters and extreme weather events (earthquakes, fires, floods, storms, etc.)
- deterioration in sea and coastal quality and pollution.

All of these factors may directly affect the number of guests and the length of their stays in hotels and campsites, as well as increase operating costs.

Health pandemics also represent a global risk, causing financial and operational disruptions to the global economy and particularly affecting tourism as a sensitive industry. Health risks constitute a particularly demanding segment of risk management, as the Company's and the Group's ability to respond in such cases is limited to risk monitoring and acting in accordance with internal and external rules and guidelines in the event of the occurrence of infectious diseases.

REGULATORY AND LEGAL RISKS

The risk of changes in laws, tax and other regulations also represent a significant risk for the Company and the Group. Changes in relevant regulations often enter into force after business plans for the future periods have already been adopted and commercial conditions with the business partners have been agreed. This can significantly adversely affect the financial position of the Company and the Group, endanger the planned investment and weaken investor trust.

The Company and the Group have obtained all necessary permits and other authorisations, as well as registrations in the relevant registers and public records for the activities they perform. The Company and the Group may be exposed to increased costs arising from the remediation of potential non-compliances or from adjustments to changes in existing regulations, as well as from the introduction of additional regulations governing the tourism and hospitality sector.

The Company and the Group are also exposed to regulatory risks related to changes in concession frameworks and concession approvals, as well as concession fees for the use of maritime domain. The right to use maritime domain constitutes one of the particularly significant conditions for continued operations, while the relevant areas are not fully regulated.

The new Spatial Planning Act (Official Gazette of the Republic of Croatia No 155/2025), which entered into force on 1 January 2026, introduced an obligation for campsites to align land use within a prescribed transitional period of up to 10 years, which will require certain costs for the Company and the Group.

Furthermore, this risk may also include the risk of changes in tax regulations, i.e. the possibility that legislative authorities may amend tax rules in a manner that could adversely affect the profitability of the Issuer and the Group. This risk is also reflected in potential changes in tax rates and the scope of taxation, as well as in the likelihood of introducing entirely new tax burdens that could likewise have a negative impact on the Group's profitability.

The risk of changes in the legal and regulatory framework is entirely beyond the control of the Company and the Group; however, amendments to relevant regulations and/or the introduction of new legislation are continuously monitored,

and appropriate compliance measures are implemented in a timely manner. Employees participate in relevant training programmes and seminars and actively prepare for potential regulatory changes.

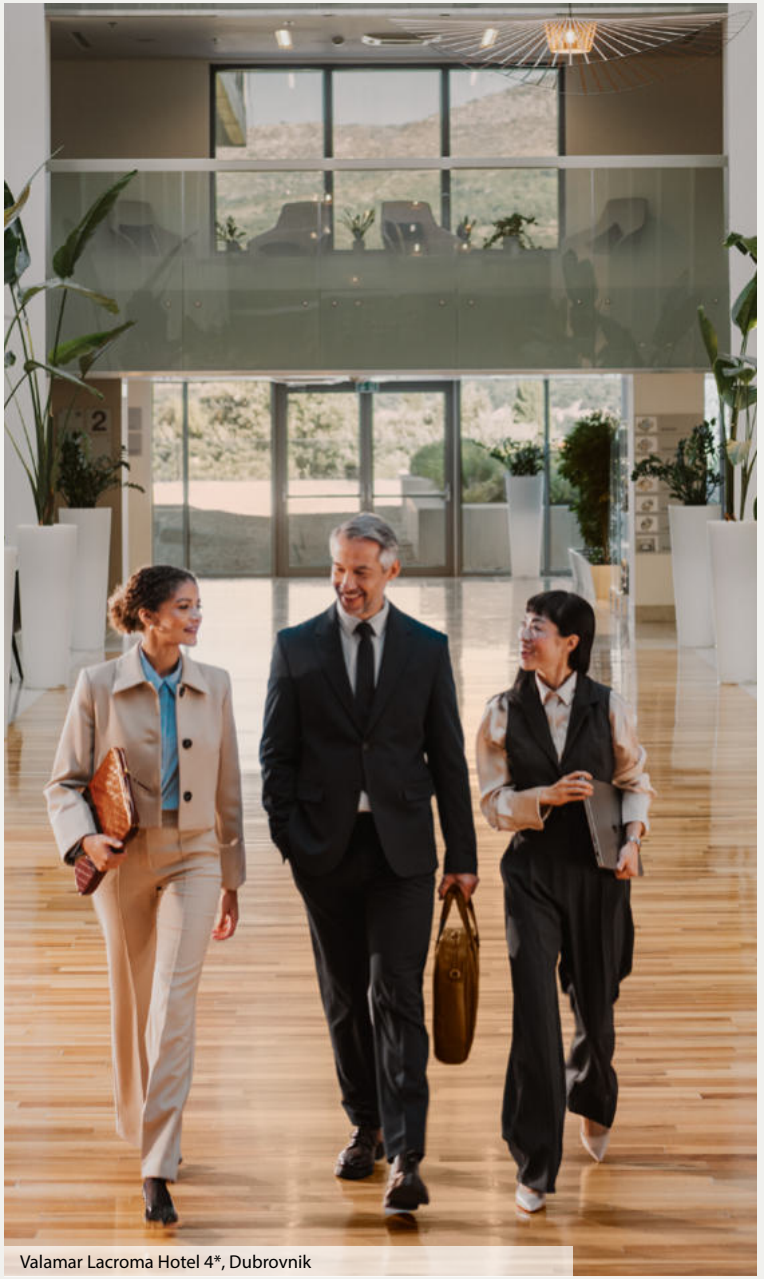

The Company is a party to several court proceedings, with the more significant cases described below.

The Company is a defendant in a lawsuit initiated in 2010 relating to the payment of amounts claimed for works performed on Hotel Lacroma during its reconstruction and extension. In 2013, the Commercial Court rendered a judgement fully dismissing the claimants' claims. In 2020, the High Commercial Court of the Republic of Croatia set aside the first-instance judgement and remitted the case for retrial. In the repeated proceedings, by a judgement issued in May 2023, the Commercial Court largely upheld the claimants' claims, holding the Company liable for payment of principal in the amount of €2,264,861.17 and litigation costs in the amount of €702,752.22, together with statutory default interest. In appellate proceedings following the Company's appeal, on 31 January 2024 the High Commercial Court of the Republic of Croatia rendered a final judgement in favour of the Company, overturning the judgement of the Commercial Court in Dubrovnik of May 2023 and dismissing all of the claimants' claims as unfounded. The claimants filed a motion seeking leave to lodge a revision against the judgment of the High Commercial Court of the Republic of Croatia of 31 January 2024, to which the Company submitted its response. On 27 May 2025, the Supreme Court of the Republic of Croatia issued a decision granting the claimants leave to lodge a revision, following which the claimants filed the revision. To date, the Company has not recognised any provisions nor recorded any expenses in its accounting records in respect of this dispute. On 21 April 2026, the Company received a decision of the Supreme Court of the Republic of Croatia, by which the claimants' appeals on points of law were upheld, the judgment and ruling of the High Commercial Court of the Republic of Croatia were set aside, and the case was remitted to the High Commercial Court of the Republic of Croatia for retrial. Changes related to this court proceeding are described in Note 14 – Subsequent events.

In 2023, the Company initiated administrative proceedings seeking the annulment of a decision of the Ministry of the Sea, Transport and Infrastructure, issued following an inspection of the economic use of maritime domain in the area of Camping Ježevac on the Island of Krk. The decision included a prohibition on providing accommodation services on several cadastral parcels and on the provision of mooring services. In May 2025, the proceedings were finally concluded to the detriment of the Company. For the purpose of regulating property and legal relations relating to the economic use of the maritime domain, the Government of the Republic of Croatia, by its Conclusion of June 2024, instructed the Ministry of the Sea, Transport and Infrastructure to urgently determine the boundaries of the maritime domain for all campsites where such boundaries had not yet been established. It further ordered the Customs Administration and the Ministry of the Sea, Transport and Infrastructure, Directorate of Maritime Safety, to suspend inspection measures prohibiting campsite operations until property and legal relations on the maritime domain are resolved where they have not yet been settled, and at the latest until 31 December 2025. By a Conclusion of the Government of the Republic of Croatia of December 2025, the deadline for resolving property and legal relations on the maritime domain was extended to 31 December 2027. Under these Conclusions, the Company has been recognised as the legitimate user of the maritime domain at Camping Ježevac. In connection with the same matter, in early February 2024 the Company also received a notification of a tax audit issued by the Ministry of Finance, which commenced on 27 February 2024. In 2025, the Company has recognised a provision in the amount of €699 thousand, corresponding to the concession fee achieved through a public tender at a comparable location, in accordance with item 3 of the Conclusion of the Government of the Republic of Croatia dated June 2024. On 22 May 2026, the Customers Administration, Rijeka Regional Customs Office, issued a Decision establishing the Company's obligation to pay a charge having the characteristics of a concession fee for the commercial use of the maritime domain. On 27 May 2026, the Company paid the aforementioned charge in the amount of €520,177.96, which comprised both the principal amount and statutory default interest, thereby bringing the tax audit of the Company to a close.

In addition to the above, the Company is also a party to other court proceedings and, in respect of all legal disputes, recognised total provisions of €1.9 million in its accounting records in 2025. Any adverse outcome of these proceedings could have a negative, but not material, impact on the financial position and profitability of the Company and the Group.

Corporate Governance

Valamar Lacroma Hotel 4*, Dubrovnik

CORPORATE GOVERNANCE CODE IMPLEMENTATION

Valamar Riviera, as well as the Valamar Group, are continuously developing and operating in accordance with best corporate governance practices. With its business strategy, policy, key acts and business practice, Valamar Riviera has established high standards of corporate governance and thereby strives to contribute to transparent and efficient operations and to establish strong connections with the environment in which it operates. The Management Board fully complies with the provisions of the adopted acts on corporate governance. Since the listing of shares on the regulated market of the Zagreb Stock Exchange d.d., the Company has been applying the Corporate Governance Code of the Zagreb Stock Exchange and the Croatian Financial Services Supervisory Agency (hereinafter: HANFA).

In 2021, the Company adopted the Code of Business Conduct with associated policies, which aligned its internal rules on corporate governance with the Corporate Governance Code of the Zagreb Stock Exchange and HANFA. The Company's Code of Business Conduct was updated in 2026 and is available on the Company's corporate website at the link https://valamar-riviera.com/wp-content/uploads/2026/10/code-of-business-conduct_2026.pdf. The following policies make an integral part of this Code:

1. Conflict of interest management policy
2. Policies and procedures for approving and disclosing transactions with related parties
3. Risk management policy
4. Corporate social responsibility policies:
    - 4.1. Service excellence and sustainable business policy
    - 4.2 Health and safety policy

The Company fully complies with and implements the prescribed corporate governance measures, with only a few justifiable exceptions. This is explained in detail in the Corporate Governance Code Compliance Questionnaire, which is published in accordance with the regulations on the Zagreb Stock Exchange website and the corporate website of Valamar Riviera (https://valamar-riviera.com/wp-content/uploads/2024/10/compliance-questionnaire-2025.pdf) and submitted to HANFA.

The Company has defined the process of preparing and publishing its financial statements in a detailed internal document. In this document, the financial reporting procedure is set within a system of internal review and risk management. Additionally, to monitor and mitigate the financial reporting risk, the Company uses the measures described in the chapter "The Risks of the Company and the Group".

MANAGEMENT BOARD AND SUPERVISORY BOARD

The Management Board and the Supervisory Board mainly conduct their work at meetings as well as by decision-making without holding meetings, via correspondence, in accordance with applicable laws and the Company's internal acts.

The authorities of the members of the Management Board and the members of the Supervisory Board of the Company are determined by the Company's Articles of Association, the Rules of Procedure of the Management Board and the Rules of Procedure of the Supervisory Board as well as other relevant regulations. The authorities of the members of the Management Board can also be regulated by specific decisions of the Supervisory Board, which are fully aligned with the Companies Act.

The rules governing the appointment and revoking of members of the Management Board and Supervisory Board are set out by the Articles of Association, in accordance with the Companies Act and the Company's relevant internal act. The rules governing appointment do not impose any diversity-related restrictions, including on gender, age, disability, education, professional background or similar. These rules have been established to enhance organisational efficiency and strengthen the corporate governance system. The Management Board and the Supervisory Board are composed of individuals with the requisite competences. In performing their respective functions – the Management Board in representing the Company

and managing its business affairs, and the Supervisory Board in overseeing the management of the Company's business affairs – both bodies act with due care and in the best interest of the Company.

MANAGEMENT BOARD

The Management Board of the Company consists of five members:

1. Željko Kukurin, President of the Management Board
2. Marko Čižmek, Management Board member
3. Ivana Budin Arhanić, Management Board member
4. David Poropat, Management Board member
5. Davor Brenko, Management Board member

In accordance with the Capital Markets Act and Regulation (EU) No 596/2014, the Company has defined senior Company executives. Alongside members of the Supervisory Board and the Management Board, these executives include two Senior Vice Presidents: Alen Benković and Sebastian Palma; Vice President Ines Damjanić; and 23 Directors: Tomislav Dumančić, Mauro Teković, Bruno Radoš, Sandi Sinožić, Andrea Štifanić, Mario Skopljaković, Dario Kinkela, Dragan Vlahović, Flavio Gregorović, Martina Šolić, Vedrana Ambrosi, Mirella Premeru, Ivica Vrkić, Lea Sošić, Roberto Gobo, Ivan Polak, Karmela Višković, Denis Prevolšek, Miloš Vukadinović, Petra-Maja Jakopec, Ivan Krešimir Kriste, Duje Bralić i Vanessa Fonović Vuković.

Senior executives work closely with the Management Board and perform the assigned corporate functions through business committees that are focused on strategic activities of the Company that require a high level of interdepartmental functional management:

- Executive Committee
- Capex Committee
- Human Resources Committee
- Product and Service Development Committee
- Procurement and Operations Committee
- Business Development Committee
- ESG Committee
- Risk Committee

Senior executives are responsible for the management of key functional business areas and activities. Furthermore, the task of senior executives is cross functional management and leadership, implementation of the corporate strategy and providing management support to the members of the Management Board.

SUPERVISORY BOARD

The Supervisory Board has nine members, of which the General Assembly elected eight members in accordance with the provisions of the Articles of Association and the provisions of the Companies Act, and one member is an appointed employee representative.

Members of the Supervisory Board:

1. Franz Lanschützer, Chairman

GENERAL ASSEMBLY

The General Assembly is convened, conducted and has authorizations in accordance with the provisions of the Companies Act and the provisions of the Company's Articles of Association, and the invitation to the meetings and proposals for decisions, as well as the decisions made, are publicly announced in accordance with the provisions of the Companies Act, the provisions of the Capital Market Act and the Rules of the Zagreb Stock Exchange d.d. There is a time limit related to the exercise of the right to vote at the General Assembly in accordance with the provisions of the Companies Act - shareholders are required to register their participation within the deadline provided by law. A financial right arising from a security cannot be separated from the ownership of that security. Within the Company, no securities carry special control rights, nor are there any restrictions on voting rights. Each share entitles its holder to one vote.

The General Assembly, held on 23 April 2026, adopted the decision on the use of profit generated in 2025 and the decisions on granting discharge to the members of the Management Board and the Supervisory Board. The General Assembly also approved the Remuneration Report for the members of the Management Board and the Supervisory Board for 2025, adopted a decision on amending the Articles of Association and the decision on the acquisition of own shares. For the audit of Valamar Riviera d.d. for the financial year 2027, Deloitte d.o.o. za usluge revizije and UHY RUDAN d.o.o. were appointed as auditors.

Following the approval of the Annual General Meeting, a dividend of €0.27 per share was distributed to shareholders, representing a dividend yield of 4.2%. The dividend was paid on 7 May 2026 in the total amount of €33,162,219.45, funded from retained earnings generated in 2021 and 2022.

OWN SHARES AND SHARE BUYBACK PROGRAM

The Company can acquire own shares based on and in accordance with the conditions set forth in the General Assembly's decision on the acquisition of the Company's own shares.

Pursuant to the General Assembly's decision of 25 April 2024, which was in force from 18 November 2024 to 22 April 2026, the Company's Management Board, on 15 January 2026, adopted the decision approving an Own Share Buyback Programme (https://valamar-riviera.com/media/538998/notification-of-adopting-an-own-share-buy-back-programme-1-7-26.pdf), which was in effect until 22 April 2026. On 23 April 2026, the General Assembly adopted a new decision on acquiring own shares, pursuant to which the Management Board of the Company, on that same day, adopted a new Own Share Buyback Programme (https://valamar-riviera.com/media/539244/notification-of-adopting-an-own-share-buyback-programme-1-101-26.pdf).

During the first nine months of 2026, the Company acquired 993,962 treasury shares on the regulated market of the Zagreb Stock Exchange, for a total amount of €7,687,741, representing an average price of €7.73 per share.

As of 30 September 2026, the Company held a total of 3,933,401 treasury shares, representing 3.12% of the Company's issued share capital.

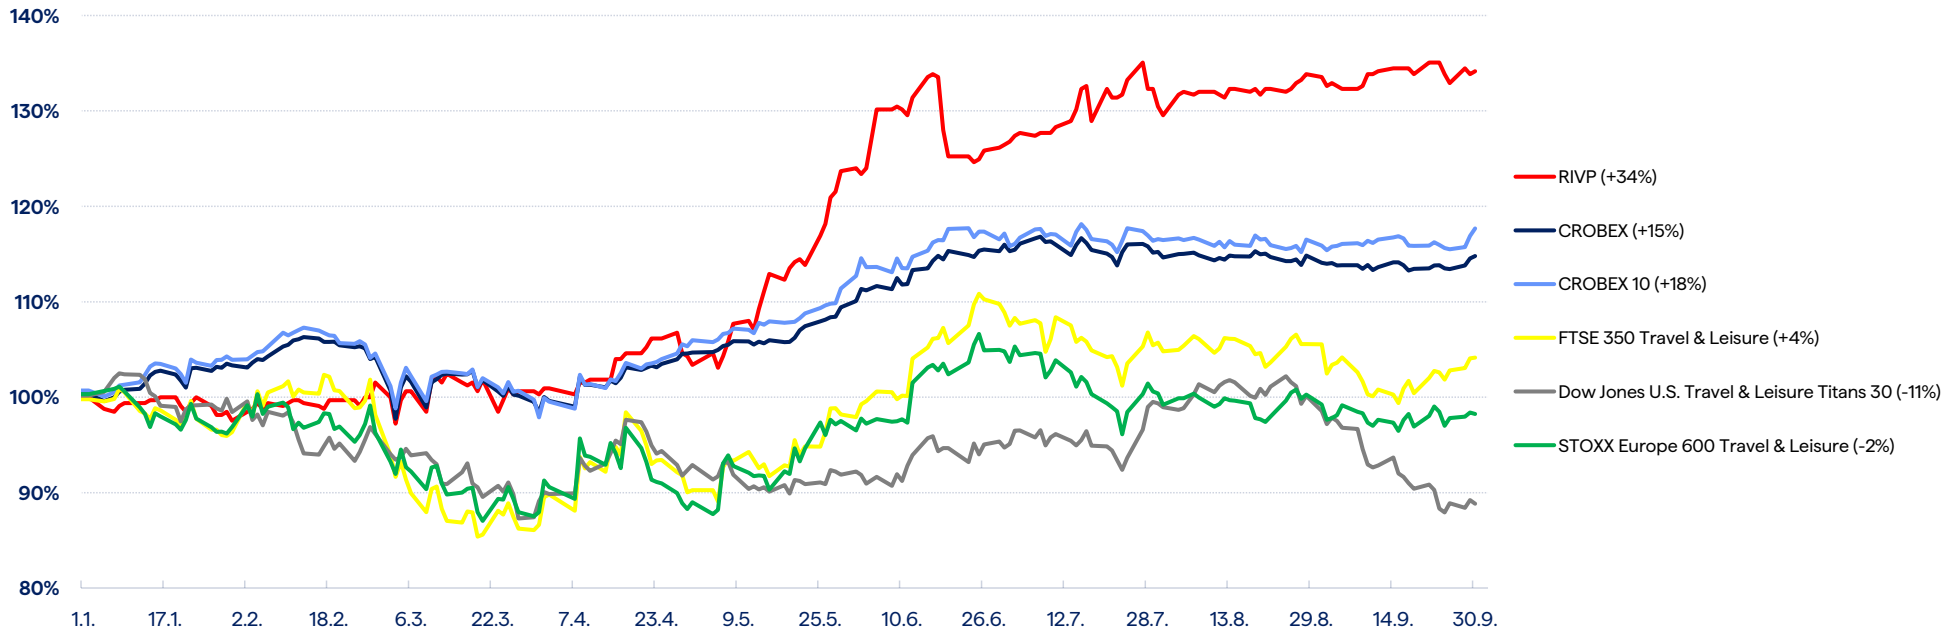

The Company holds and acquires own shares to reward members of the Management Board, key executives and employees in accordance with the Company's internal remuneration acts, as well as for the potential payment of a portion of dividends in kind, i.e. in the form of the Company's shares. Pursuant to the adopted long-term share-based incentive plan for key executives for the period from 2023 to 2026, aimed at fostering loyalty, supporting the achievement of business objectives and enhancing shareholder value, the Company, on 15 April 2026, released a total of 310,242 own shares. On that same date, the Company also released a total of 301,187 own shares as payment of the 2025 bonus to employees in Company shares.

This report may contain certain expectations based on currently available facts, knowledge, and circumstances, as well as related estimates.

Our expectations are based on, but not limited to:

a. actual results achieved in the first nine months of 2026
b. business revenues realised as of 28 October 2026
c. the current state of bookings
d. the forecasted business performance until the end of 2026
e. the absence of any additional significant negative impacts from risks to which the Company and the Group are exposed.

These expectations do not constitute a guarantee of future performance and are subject to future events, risks, and uncertainties, many of which are beyond Valamar Riviera's control or currently unknown. Furthermore, the assumptions on which they are based may prove inaccurate, potentially causing actual results to differ materially from the stated expectations and projections. Risks and uncertainties include, but are not limited to, those described in the section "Risks of the Company and the Group". Material deviations from the stated expectations may result from changes in circumstances, unrealised assumptions, and other risks, uncertainties, and factors, including but not limited to:

- Macroeconomic trends in the Republic of Croatia and key source markets, including exchange rate fluctuations, changes in the prices of goods and services, deflation and inflation, unemployment, trends in gross domestic product and industrial production, and other factors that directly or indirectly impact the purchasing power of Valamar Group's guests
- Economic and political-security conditions, as well as developments in capital markets in the Republic of Croatia and Valamar Group's source markets
- Consumer spending levels, disposable income, and guest confidence and satisfaction with Valamar Group's products and services
- Trends in overnight stays, booking patterns, and the movement of average selling prices for accommodation units within Valamar Group's properties
- Changes in market interest rates, fluctuations in the value of equity securities, and other financial risks to which the companies of the Valamar Group are exposed
- Availability and costs of labour, transport expenses, energy costs, utility charges, the prices of energy sources and other goods and services, as well as disruptions in the supply chain
- Changes in accounting policies and audit findings related to financial statements, as well as findings from tax and other regulatory reviews
- Outcomes and costs of legal proceedings involving the companies of the Valamar Group
- Loss of competitiveness and reduced demand for Croatian tourism and Valamar Group's products and services due to weather conditions and seasonal fluctuations
- Reliability of business IT solutions, cybersecurity risks related to the companies of the Valamar Group, and associated costs
- Changes in tax and other regulations and laws, trade restrictions, and customs duties
- Natural disasters, environmental risks, epidemics, and pandemics
- Regional and global geopolitical uncertainties and armed conflicts.

In the event of material changes to the stated expectations, Valamar Riviera shall, in accordance with Article 459 Of the Capital Market Act, inform the public without delay. Expectations expressed do not constitute an inducement to buy, sell or retain shares in Valamar Riviera.

NOTE 2 – SUMMARY OF MATERIAL INFORMATION ON THE ACCOUNTING POLICIES AND ESTIMATES

2.1 Basis of preparation

The Group's and Company's financial statements for the nine-month period 2026 have been prepared in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting*. The financial statements have been prepared under the historical cost method, except for the financial assets at fair value through profit or loss and financial assets through other comprehensive income (OCI). The consolidated and non-consolidated financial statements for the nine-month period do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's and Company's annual financial statements as at 31 December 2025 which are available on HANFA (Croatian Financial Services Supervisory Agency), Zagreb Stock Exchange and Company's web page.

2.2 Going concern

The Group's and Company's nine-month period financial statements have been prepared on a going concern basis. Based on current expectations Management believes that the geopolitical situation will not have a significant negative impact on the Group's and Company's ability to fulfil its obligations nor prolonged impact on Group's and Company's revenues and overall business which can affect the Group's and Company's ability to continue as a going concern in the foreseeable future.

2.3 Significant accounting policies

The accounting policies adopted in the preparation of the financial statements for the nine-month period 2026 are consistent with those followed in the preparation of the Group's and Company's annual financial statements for the year ended 31 December 2025.

2.4 Critical accounting estimates

During the preparation of the financial statements for the nine-month period 2026, there were no changes in the key accounting estimates compared to the estimates used in the preparation of the annual financial statements for the year ended 31 December 2025.

The Group and the Company as lessees of tourist land

Due to the transition from public to private ownership, e.g. in the transformation and privatisation process and the fact that the properties of the Group and the Company that were used in the transformation process were appraised in the share capital of the Company, and a part was not appraised, there are proceedings regarding the ownership of a part of the land within the majority of tourist companies, as well as for the Group and the Company. For the purpose of addressing the aforementioned situation the Act on unappraised land ("the ZNGZ") was adopted. The ZNGZ prescribes the obligation to determine and form buildings on appraised parts of campsites, hotels, tourist resorts and other construction land as ownership of the Group and the Company and buildings on unappraised parts of campsites, hotels, tourist resorts and other construction land as ownership of Republic of Croatia or local governments. For parts of a land owned by the Republic of Croatia or local governments, the Group and the Company currently do not have lease agreements in place. However, they are actively working on preparing such agreements, with the lease term set for 50 years. From the entry into force of the ZNGZ until the day of signing the lease agreement, the rent will be paid according to the area of the tourist land for which the concession fee has been calculated based on the previous Act, in the amount of 50% of the fee until the final resolution of property legal relations. The unit amount of rent and the method and terms of payment is determinated by Regulations from Government.

On 8 February 2024, the Government of the Republic of Croatia adopted two Regulations on tourist lands: (1) the Regulation on lease management on tourist land with hotels and tourist settlements and (2) the Regulation on lease management in camp areas owned by the Republic of Croatia (hereinafter: the Regulations).

After the adopted Regulations, the Group and the Company estimated that in the future the Group will use 2.8 mn m^2 of tourist land and the Company 2.6 mn m^2.

The accounting treatment of leases by lessees, including the rent of tourist land according to the provisions of the ZNGZ, should be viewed in the context of provisions of IFRS 16 - *Leases*. However, when analyzing the effects of the Act and Regulations and the actual application of the relevant standard, significant evaluations of the criteria for the application of IFRS 16 are required.

According to the Regulations lease fees are determined as an indexed unit price per square meter up to a maximum of 4% of the tourist facility income of the previous period. The Group and the Company made detailed analysis of fees for each individual tourist facility.

For tourist facilities for which it is estimated that the variable income limit will be reached in most years, the payments are considered variable and as such are excluded from the lease liability, i.e. the criteria for applying IFRS 16 are not met. Variable lease payments are recognized in the statement of comprehensive income for the period.

For tourist facilities for which the variable income threshold is estimated to be unlikely (very low probability) to ever be exceeded, the payments are basically fixed and the indexed unit price per square meter is included in the calculation of the rental obligation.

According to the prescribed unit rent prices from the Regulations and the determinated discount rates of 5.42% and 7.96% for the Group, an initial assessment of the value of assets and liabilities with the right of use was carried out in accordance with IFRS 16 which at initial recognition amounted to EUR 62.8 million for the Group and EUR 58 million for the Company.

The estimated amount of rent for tourist land for 2026 amounts to EUR 4.7 million for the Group and EUR 4.3 million for the Company. On the basis of the fixed part of the rent, with the application of IFRS 16, the Group and the Company have for the nine-month period 2026 recognized depreciation expense in the amount of EUR 1,022 thousand for the Group and EUR 946 thousand for the Company and interest expense in the amount of EUR 2,637 thousand for the Group and EUR 2,351 thousand for the Company was shown. On the basis of the variable part of the rent, the operating cost for the Group and the Company was shown in the amount of EUR 723 thousand.

NOTE 3 – FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

In their day-to-day business activities, the Group and the Company face a number of financial risks, especially market risk (including currency risk, interest rate risk and price risk - is not materially significant for the Group and the Company), credit risk and liquidity risk. The Group and the Company have a proactive approach in mitigating the interest rate risks by using available market instruments. Internal risk management goals and policies aim at protecting partial interest hedging of the principal loan amount.

3.2 Capital management

The objectives of the Group and the Company in managing capital are to provide long-term value to their shareholders by ensuring liquidity, profitability and an optimal financing structure, as well as a balanced capital allocation strategy, including share repurchases and a consistent dividend policy. The target dividend yield for shareholders is approximately 4% relative to the average market price of the share achieved in the last quarter of the previous financial year. The Group and the Company are not subject to externally imposed capital requirements.

3.3 Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used to determine the fair value of financial assets represents the current bid price. The fair value of financial instruments that are not traded in the active market is determined by using valuation techniques.

The following table presents assets measured at fair value as at:

The specific valuation techniques used to measure financial instruments include:

- Quoted market prices or broker quotations for similar instruments.
- The fair value of interest rate swaps is calculated as the present value of estimated future cash flows based on observable yield curves.
- An internal net asset value assessment is used to determine the fair value of the remaining financial instruments.

Quoted market prices for similar instruments are used for long-term debt. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group and the Company for similar financial instruments.

Fair value hierarchy

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Group's and the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTE 4 – SEGMENT INFORMATION

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Group's Management (the chief operating decision-makers) who are responsible for allocating resources to the reportable segments and assessing its performance. Internal reporting is based on the USALI (Uniform System of Accounts for the Lodging Industry), and internationally recognised standard for financial reporting in the hotel industry.

The Group records operating revenues and expenses by types of services rendered in three basic segments: hotels and apartments, campsites and other business segments. Revenue was divided between segments according to the organizational principle, where all of the income generated from camping profit centres was reported in the campsites segment, and all of the income generated from hotel and apartment profit centres was reported in that segment. Other business segments include revenue from laundry services, other rentals of properties, revenue generated from the central services and central kitchens, revenue from retail, agency revenue and revenue from the accommodation of employees. Revenue from boarding services relate to predefined service packages that include accommodation as well as food and beverages. Revenue from a la carte do not relate to service packages, instead guests consume food and beverages selected from the restaurant menu.

NOTE 6 – INCOME TAX

During the period in 2026 the Group and the Company estimate income tax according to the IAS 34 provisions, i.e. it is based on the best estimate of the weighted average annual income tax rate expected for the full financial year, adjusted for the expected changes during the period. Due to highly seasonal character of business, the profit tax estimate for quarterly reports is not an indicator of the final profit tax on 31 December 2026. Furthermore, in 2026, based on the investment aid granted for the project "Development Projects Valamar Riviera d.d. for the investment cycle 2024-2027", the Company will recognise tax incentives corresponding to the amount of investments made, which will consequently result in a lower amount of the current corporate income tax. During 2026, the Company will pay corporate income tax advances and will determine the final obligation based on the corporate income tax return. For 2025, the Company in the name of the prepaid advances received a refund.

During the third quarter, the Company received a second-instance Decision issued by the Ministry of Finance, which has become enforcable. The Company is undertaking the necessary operational activities pursuant to the decision and will be entitled to a reduction in its corporate income tax liability in future periods, meaning there will be no cash outflows.

Corporate income tax is calculated using the legal income tax rate of 18% in the Republic of Croatia.

Established branch Valamar Riviera d.d., Zweigniederlassung Austria is an Austrian taxpayer with income tax rate of 23%.

Income tax comprise:

	GROUP		COMPANY	
(in thousands of EUR)	January - September 2025	January - September 2026	January - September 2025	January - September 2026

- lease liabilities under IFRS 16 of the Company EUR 82,671 thousand, of which the most significant item is the rental of tourist land in the amount of EUR 60,865 thousand.

Detailed explanation of tourist land leases liabilities in Note 2.4 - *Critical accounting estimates - The Group and the Company as lessees of tourist land*.

NOTE 11 – CONTINGENCIES AND COMMITMENTS

The contracted capital commitments of the Group in respect to investments in tourism facilities at 30 September 2026 amount to EUR 40,574 thousand (30 September 2025: EUR 76,596 thousand). The contracted capital commitments of the Company in respect to investments in tourism facilities at 30 September 2026 amount to EUR 37,928 thousand (30 September 2025: EUR 68,446 thousand).

The Company is the guarantor of the bank loan of related-party Valamar Obertauern GmbH. The estimated maximum amount of the guarantee that can be realized is EUR 3,860 thousand. The loan of the related party is secured by mortgages on the real estate of Valamar Obertauern GmbH. The Company estimates the very low probability of incurring an actual obligation under the guarantee.

In 2023, the Company initiated an administrative dispute to annul the Decision of the Ministry of the Sea, Transport and Infrastructure, adopted after inspection supervision of economic use of the maritime domain in the area of the Ježevac camping on the island of Krk, which includes a ban on the provision of accommodation services on several cadastral parcels and a ban on the provision of anchoring services, however the proceedings were concluded by a final and legally binding decision adverse to the Company. For the purpose of regulating property rights relating to the commercial use of the maritime domain, in June 2024 the Government of the Republic of Croatia in its Conclusion adopted a Conclusion instructing the Ministry of the Sea, Transport and Infrastructure to determine the boundary of the maritime domain for all campsites in front of which the border of the maritime domain has not been determined, and order that the Customs Administration and the Ministry of Sea, Transport and Infrastructure, the Navigation Safety Administration stop with the inspection measures banning the operation of campsites until the property relations on the maritime domain are resolved, by 31 December 2025 at latest. By the Conclusion of the Government of the Republic of Croatia in December 2025, the deadline for resolving property-legal relations on the maritime domain was extended to 31 December 2027. The Company has thereby been established as the legitimate user of maritime domain at the Ježevac campsite. In the same matter, in early February 2024, a notice of tax inspection was received from the Ministry of Finance, which began on 27 February 2024. The Company has made a reservation in the amount of EUR 699 thousand. On 22 May 2026, the Customs Administration, Customs Office in Rijeka, issued a Decision establishing the Company's obligation to pay a fee having the characteristics of a concession fee for the commercial use of the maritime domain. On 27 May 2026, the Company settled the aforementioned fee in the total amount of EUR 520,177.96, including the principal amount and statutory default interest, thereby concluding the tax audit of the Company.

The Company is the defendant in a lawsuit from 2010 related to the payment for works on the Lacroma Hotel during its reconstruction and expansion. The Commercial Court issued a judgment in 2013, rejecting the plaintiff's claims in full. In 2020, the High Commercial Court of Croatia overturned the first instance ruling, and the case was sent back for a retrial. In the repeated proceedings, the Commercial Court in its judgement of May 2023, for the most part upheld the claim and the Company is held liable for the payment of principal in the amount of EUR 2,264,861.17 and litigation costs in the amount of EUR 702,752.22 and the corresponding statutory default interest. On 31 January 2024, the High Commercial Court of the Republic of Croatia issued a final judgment in favour of the Company, reversing the judgment of the Commercial Court in Dubrovnik from May 2023 and rejecting as unfounded all of the claims of the plaintiff. The plaintiffs filed a motion for leave to revise against the judgment of the High Commercial Court of the Republic of Croatia from 31 January 2024, to which the Company sent its response. The Supreme Court of the Republic of Croatia issued a decision on 27 May 2025 granting the plaintiffs to file for a revision, and plaintiffs have submitted a revision. On 21 April 2026, the Company received a Decision of the Supreme Court of the Republic of Croatia granting the claimant's appeal on points of law, setting aside the judgement and decision of the High Commercial Court of the Republic of Croatia, and remitting the case to the High Commercial Court for a retrial. So far, the Company has not made a reservation or booked costs for the said dispute in its books.

The Company was also a defendant in a lawsuit from 2012, which is related to the payment for work on Lacroma Hotel. The Commercial Court's first-instance ruling from 2015, which was upheld by the High Commercial Court in 2019, rejected the plaintiff's claim. However, on 4 July 2023 the Supreme Court of the Republic of Croatia annulled the rulings of the Commercial Court and the High Commercial Court and remanded the case for retrial. Based on the claims in the lawsuit, the principal amount in this case was EUR 1,498,608.42. In the retrial, the Commercial Court in Dubrovnik issued a first instance judgment in favour of the Company in February 2024. In the appeal procedure, following the plaintiff's appeal, the High Commercial Court of the Republic of Croatia issued a final ruling on 26 March 2024, unfavourable for the Company, overturning the Commercial Court in Dubrovnik judgment from February 2024 and accepting the plaintiff's claims. On 23 May 2024, based on the final judgment of the High Commercial Court, funds were transferred from the Company's account. On 28 May 2024, the Company filed a motion for permission to review the judgment of the High Commercial Court of the Republic of Croatia. In September 2024, the Supreme Court of the Republic of Croatia issued a decision rejecting the Company's motion for permission to file a proposal against the High Commercial Court's judgment. In the half year period 2024, the Company recorded expenses in the amount of EUR 4.1 million for the principal amount and default interest related to this legal dispute. The Company has filed within a timely manner an Administrative Complaint with the Administrative Court of the Republic of Croatia against the decision of the Supreme Court of the Republic of Croatia which rejected the permission for revision. On 9 October 2025, the Company received a decision from the Constitutional Court by which the Company's constitutional complaint was upheld. By the decision of the Constitutional Court, the Supreme Court's decision granting permission to file an appeal was annulled and the case was remitted to the Supreme Court for retrial.

In the nine-month period 2026, the Company abolished provisions for legal disputes in the amount of EUR 699 thousand (30 September 2025: EUR 113 thousand).
